

## BELIEVE RESOLUTION WILL PASS NEXT WEEK

### FRIENDS OF CONVENTION MEASURE EXPRESS CONFIDENCE

Indications Are That Close Vote Will Decide Fate of Measure—House Passes Four Bills—Senate Seats Two Republicans.

Springfield, Ill., Mar. 24.—Friends of the measure providing for the submission to the voters of a proposition for holding a constitutional convention, expressed confidence tonight that the resolution will obtain a two-thirds vote when it comes up for final disposition next week, regardless of the fact that only 79 members voted to recommend its passage today when it was considered by the house, sitting as a committee of the whole.

Close Vote is Indicated. Indications today were that the resolution will be passed or defeated by a close vote. Several representatives who were not in the house when the resolution was being considered declared they will vote for it.

Representatives Louis J. Pierson and Edward D. Shurtliff, who led the fight for the resolution, declared it would receive many more votes next week but expressed doubt whether it would receive a two-thirds vote of 102. Opponents of the constitutional convention plan declared the resolution will be defeated.

House Passes Four Bills. Four bills were passed by the house today. One was the Smeck bill providing for the deduction from the taxable property of fraternal insurance companies the net value of their benefit certificates, another the Shepherd emergency bill making a deficiency appropriation of \$29,965 to the state industrial board. The other two were the Merritt emergency measure appropriating \$26,000 to meet a deficiency in the state insurance department and the Igoe bill.

An administration measure providing for appointment by the governor of a state tax commission to replace the present state board of equalization and providing for appointment instead of election of several state and county officers was introduced by Representative J. J. O'Rourke, Democrat, of Harvey.

Two bills prepared by the state board of administration and carrying appropriations of more than \$11,000,000 were introduced by Representative Smeck, chairman of the appropriations committee. One bill appropriates \$2,087,923.08 for buildings and repairs to all state charitable institutions for a period of two years. The second bill appropriates \$8,918,290.74 for salaries and all other expenses of all state institutions for a like period.

Measures introduced by Representative Mauker increases the number, outside of Cook county, of municipal judges from three to five.

To Examine Appointments. An examination of appointments made by Governor Dunne in the last two years, a list of which was laid before the senate today, will be made by that body before confirmation. This was decided upon at a caucus of the Republican senators this afternoon. When the matter comes up tomorrow a resolution will be offered providing that the executive committee shall name a committee of five senators to investigate the appointments and report to the senate before action is taken.

Revel G. Baldwin and Henry W. Austin, Republicans, representing the eleventh and twenty-third districts respectively, were seated by the senate today.

Bills Passed by Senate. The following bills were passed by the senate today and sent to the house:

Providing for deduction from taxable property of fraternal insurance companies the net value of their benefit certificates. Vote 47 to 0. Extending to Spanish-American and other recent war veterans the same privileges as accorded Civil War veterans in the matter of obtaining civil service positions. Vote 43 to 1.

Making an emergency deficiency appropriation of \$29,965 for the state industrial board. Vote 47 to 0. Senator Glackin's joint resolution recommending that congress pass an old age and disability pension law for federal employees was passed.

## TO PROBE REPORTS OF BUILDING OF SUBMARINES FOR BELLIGERENTS

WASHINGTON, March 24.—An other investigation to determine whether American ship yards are building submarines for European belligerents was ordered today by Secretary Daniels. Naval officials stationed at private plants on both the Atlantic and Pacific coasts were directed to make inquiries and report to Washington.

This action was taken on account of the published reports that the Fore River ship yard at Quincy, Mass., was building submarines in sections and shipping the parts to Montreal, Canada, for the British navy. Secretary Daniels said tonight that a similar investigation made some time ago failed to disclose any work in progress for belligerent powers.

## TESTIFIES EVIDENCE FOR USE OF DEFENSE WAS MANUFACTURED

Terre Haute Chief of Police is Recalled to Relate His Part in Election Day Activities.

Indianapolis, Ind., March 24.—That evidence had been manufactured for the use of the defense in the trial in United States district court here of the Terre Haute election case was the testimony of Edward Holler, chief of police, who has pleaded guilty. Holler, who testified some days ago regarding registration, was recalled today to relate his part in election day activities.

Holler was cross examined by A. O. Stanley, for the defense, who introduced a police entry in Holler's handwriting of a number of men in November last, after Holler had stated that he had not made the entry. On direct examination Holler asserted that the entry introduced had been made a month or more after election but before he had pleaded guilty. He said that at the request of Mayor Donn M. Roberts, he had prepared a number of such exhibits which were to be used in defense of Roberts and others indicted by the federal grand jury. Holler said he had a number of these in his pocket but he was not requested to produce them. In addition to Holler a number of witnesses testified to facts bearing out the contention of United States district attorney Frank C. Daley that election inspectors were instructed by Roberts to work the lever of the voting machine, stand in a position to see how each man voted and not the voting keys when possible. Witnesses testified that George Ehrenhardt, member of the board of works, Lewis Numley, an employee of the city engineer's office and Charles (Bud) Houghton, assistant custodian of the city hall, all of whom served as election inspectors are defendants, carried out their alleged instructions. The witnesses, most of whom were progressive election officers serving on the boards with the inspectors, told of repeated protests against the actions of the inspectors, but to no purpose.

Representatives Louis J. Pierson and Edward D. Shurtliff, who led the fight for the resolution, declared it would receive many more votes next week but expressed doubt whether it would receive a two-thirds vote of 102. Opponents of the constitutional convention plan declared the resolution will be defeated.

Representatives Louis J. Pierson and Edward D. Shurtliff, who led the fight for the resolution, declared it would receive many more votes next week but expressed doubt whether it would receive a two-thirds vote of 102. Secretary Daniels said tonight that a similar investigation made some time ago failed to disclose any work in progress for belligerent powers.

## DEMOCRATS NAME JONES, BURTON AND CREIGHTON

### EXPECTED WAR BETWEEN CONTEST- ING DELEGATIONS DOES NOT DEVELOP

Credentials Committee Recommends That Both Delegations be Seated—Rainey Eulogizes Work of Jurists—Nomination is Unanimous.

Springfield, Ill., March 24.—Judges James A. Creighton of Springfield, Frank W. Burton of Carlinville and Norman L. Jones of Carlinville were nominated today by the Democrats of the Sixth Judicial circuit in the convention held in this city today.

The expected war between contesting delegations from Sangamon county did not materialize as the committee on credentials recommended that both delegations be seated.

Eulogizes Work of Jurists. Congressman Henry T. Rainey of Carrollton nominated Judge Norman L. Jones in a speech in which he eulogized the work of the present jurists and also the work of former Judge Robert B. Shirley who died some time ago.

A. H. Abel of Carlinville, placed Judge Frank W. Burton in nomination and James H. Matheny of the Sangamon county bar nominated Judge Creighton.

The three men were chosen on a motion unanimously adopted by the convention.

The committee on credentials which seated the two Sangamon county delegations which split following the county meeting, was composed of Millard F. Dunlap, Jacksonville; Eugene Bone, Springfield; J. M. Pace, Jerseyville; George W. Hogan, Scott county; A. J. Dugan, Macoupin county; Thomas Henshaw, Greene county and Henry Hawley of Springfield.

Walter Chapman of Jerseyville was selected chairman of the caucus and James E. Caldwell of Sangamon county, secretary.

Nominees Address Members. The three nominees were escorted to the convention hall and each delivered an address to the members thanking the delegates for the honor.

Orlando L. Caldwell of Springfield offered a resolution endorsing the administration of President Wilson. Governor Dunne, Senator James Hamilton Lewis and complimenting the judges of the circuit on their work.

The resolution was read but no action was taken on it.

After the two warring delegations from Sangamon county had been seated the convention turned into a love feast for Democracy.

Republicans Name Candidates. Danville, Ill., March 20.—Augustus Parlow, Danville; John H. Marshall, Charleston; and Walter Brewer, Toledo, were nominated by the Republican convention at Paris today for judges of the fifth judicial circuit.

## SAYS CONGRESS HAS NO POWER TO PROVIDE PRESIDENTIAL PRIMARY

Senator Pomerene Reaches Conclusion That Constitution Must Be Amended or Subject Left Entirely to the States.

Washington, Mar. 24.—Senator Pomerene of Ohio, who has been one of the active advocates of prompt passage of a presidential primary bill in order that the candidates in 1916 might be chosen under it, announced tonight that he had reached the conclusion with very great regret that congress has no power to provide for a presidential primary and that the constitution must be amended or the subject left entirely to the states. Senator Pomerene has discussed the subject several times recently with President Wilson who advocated a presidential primary law in his first annual message to congress. The president told callers recently he had not decided whether a constitutional amendment would be necessary. In a statement made public tonight Senator Pomerene quoted from the constitution to show that control over the selection of electors for electing a president had been vested in the states and argued that if "such power is not conferred upon the congress with reference to presidential elections it can hardly be inferred to exist in so far as it relates to the mere choosing of party candidates for the presidency."

Democratic party leaders, despite talk of presidential primaries, have been going ahead with their plans on the assumption that the parties will make their nominations for 1916 at the usual conventions. A number of individual states however, have already provided for presidential primaries and they are expected to play an important part in the outcome of the conventions.

## VILLA DECLARES MORATORIUM

El Paso, Texas, Mar. 24.—A three months moratorium suspending the payment of all notes, mortgages and other indebtedness in the territory controlled by General Villa, has been declared. The decree was signed by general Villa in Monterey on March 19, and was made public today in Chihuahua City. The Bank of Chihuahua, the official bank of the northern government, is exempted from the operation of the decree.

## War News Summarized

The Russian armies, doubtless inspired by the victory at Przemyśl, are pressing the fighting both in northern Poland and the Carpathians where Germans and Austrians are giving desperate battle to stay the attempted advance of the Muscovites. Probably the struggle in the Carpathians will prove to be the one that presently will attract the most attention, for even Vienna reports that strong Russian forces are now attacking with great violence along the front extending for some miles from Usok Pass and that fierce fighting is taking place for the possession of the heights which dominate the important outlets from the north into Hungary.

The Germans have brought up many additional troops in the north of Poland, where, along the Narew and Ozyce rivers, they have been pouring a deadly fire into the Russian ranks and have time after time undertaken strong offensive operations.

Notwithstanding this, however, the Russians claim to be making "slow but sure progress, capturing trenches and heights." British air raids, according to an official statement from London, have succeeded in damaging two submarine under construction by the Germans at Hoboken near Antwerp and to have done damage also to the plant, which formerly was the property of a British company.

There is some doubt as to what is going on in the Dardanelles, one report stating that the bombardment had been resumed, but others that the operations were still being interfered with by unfavorable weather.

## GREGORY TO GIVE ATTENTION TO PROCEEDINGS AGAINST SHIP

Criminal Prosecution of the Master of German Steamer Odenwald Will Not Be Undertaken for the Present.

Washington, March 24.—Criminal prosecution of the master of the German Steamship Odenwald for alleged violation of the neutrality laws by attempting to slip to sea from San Juan, Porto Rico, without clearance papers will not be undertaken by the department of justice for the present. Although no official announcement was made, it was learned today that Attorney General Gregory plans to concentrate attention on the proceedings against the Odenwald itself.

The prosecution will be begun in the United States district court for Porto Rico as soon as possible. The penalty in case of conviction is confiscation of the ship by the United States. It was said tonight that no report had been received at the department from the district attorney for Porto Rico on the case except a request for a copy of the recent neutrality resolution of congress under which action is to be taken. The resolution was cable at once.

## PREMIUMS PAID TO WAR RISK BUREAU AMOUNT TO \$1,750,000

WASHINGTON, March 24.—Premiums have been paid to the government war risk insurance bureau to date amounting to \$1,750,000 and losses have aggregated only \$670,663, according to an announcement tonight. The losses may be considerably reduced thru salvage of cotton in the cargoes of some of the steamers lost. The bureau had outstanding tonight policies aggregating \$18,000,000 out of a total of \$66,000,000 written since the war began. Its earned premiums to date amount to about \$1,250,000. Several ships insured with the bureau have gone to the bottom recently from other causes than those incident to war so the bureau has earned the premiums on these ships despite their sinking. In the last few weeks comparatively few policies have been written.

## ARREST TEXAN ON CHARGE OF VIOLATING THE MANN ACT

ST. LOUIS, March 24.—W. L. Wagley of Fort Worth Texas, who says he is president of the International Manufacturing company incorporated at Wilmington, Del., with a capitalization of \$10,000,000 was arrested in the St. Louis office of the company today on an indictment issued at Fort Worth charging violation of the Mann act.

Wagley was accused of having transported Madeline Coleman, 23 years old, and Dorothy Allen, 23 years old, from St. Louis to Fort Worth last August, who is 55 years old, termed his arrest the result of a scheme to blackmail him.

## CLAIM DEFEAT OF ATTACKS

Paris, March 24.—Via London, March 25.—(12:13 a. m.)—The following official communication was issued today by the war office.

## APPROVE GOV. DUNNE'S DEEP WATERWAY PLAN

### PUBLIC MEETING IS HELD IN HOUSE OF REPRESENTATIVES

Fifteen Speakers are Heard—Many Letters and Resolutions Endorsing the Project Are Read—Dunne is First Speaker.

Springfield, Ill., March 24.—Governor Dunne's deep waterway plan was given enthusiastic impetus at a public meeting held tonight in the house of representatives. State officials, engineers, business men and commercial associations united in voicing their approval of the project and in urging upon the assemblymen its early enactment into law. The meeting was an open session of the waterways committee.

Igoe Presides at Meeting. Mr. Igoe of Cook county, chairman of the committee and the introducer of house bill No. 177, which embodies the governor's waterway plan, presided. The speakers included Governor Dunne, Attorney General Lucey, United States Senator J. Hamilton Lewis, Lyman E. Cooley, consulting engineer of the Chicago sanitary district; E. J. Kelly, assistant chief engineer of the Chicago sanitary district; LeRoy K. Sherman, member of the rivers and lakes commission; S. A. Thompson, secretary of the National rivers and harbors congress; S. C. Morgan, Peoria; E. T. Harris, chairman of the waterways committee of the Illinois Manufacturers' association; J. J. Massion, mayor of Peru; H. C. Barlow, traffic manager, Chicago association of commerce; John E. Wood, mayor of Joliet; E. J. Ward, Marseilles; J. A. Sackett, Morris; Judge Henry Wayo, Ottawa.

Read Letters and Resolutions. Before the speaking began letters and resolutions endorsing the project were read from Mayor Harrison of Chicago; Governor E. W. Major of Missouri; Governor A. O. Eberhart of Minnesota; Charles L. Deering, president of the Chicago association of commerce; John Erickson, engineer of Chicago; H. F. Saunders, secretary and general manager of the business men's league of Missouri; C. F. Perry, vice-president of Illinois of the Upper Mississippi river improvement association; E. H. Nelsens, secretary of the Chicago Federation of Labor; William K. Abbott, mayor of Quincy; Walter A. Shaw, member of the state public utilities commission of Illinois; George H. Taylor, president of the Chicago real-estate board; Sterling Morton of the Morton Salt company and Charles J. Blum of Libby, McNeil and Libby. Hundreds of additional letters and telegrams were in the hand of Chairman Igoe but time would not permit of their reading.

Governor Dunne was the first speaker of the evening. He was in his office every morning, every afternoon and would be there every evening that is necessary for the discussion of this proposition he said.

Explains Elimination of Item. Senator James Hamilton Lewis told the legislators of the reason for the elimination from the appropriation bill in congress of the one million dollar item for assistance in the Illinois waterway project.

He said the item was inserted originally with the provisions that Illinois should adopt a plan of waterway construction that would harmonize with the federal system. So long as this state contended for a fourteen foot channel, there was no possibility of harmonizing the two problems, he said. When the item was stricken from the last appropriation he said it was with the understanding that if Illinois took harmonizing action the million dollars would not only be restored but that a million and a half would be added. If the legislature acts within a reasonable time, he said he could assure the members that the federal aid will be forthcoming at the next session of congress.

WOMAN THREATENS TO KILL  
CHICAGO MAYOR; IS ARRESTED

CHICAGO, March 24.—Mrs. Leonora Dornig, 50 years old, was arrested today in the office of Mayor Carter H. Harrison in the city hall after she had shouted that she would kill the mayor. She would not give any reason for threatening the life of the city's chief executive. She said she was once the wife of a Pittsburgh banker of the name of Montgomery, who was sentenced to prison after the failure of his business.

Mrs. Dornig became violent when seized by two policemen and wrecked some furniture. The policemen said she had been arrested before for causing disturbance in public office.

## REICH KNOCKS OUT PELKY

New York, March 24.—Al Reich of this city, former amateur heavyweight champion, knocked out Arthur Pelky of Massachusetts in the third round of a ten round match here tonight. It was a hard battle, Reich taking the first, round, and Pelky evening it up in the second. Each weighed 206 pounds.

## REPORT IS DENIED

Munich, via London, March 24.—(11:07 p. m.)—The report which has been circulated abroad that Crown Prince Rupprecht of Bavaria has been seriously wounded by a shell is officially denied.

## GENERAL ELECTION IS HELD THROUGHOUT JAPANESE EMPIRE

Campaign Has Been the Most Exciting and Expensive in the History of Country—Growth of Democracy is Evidenced.

Tokio, Mar. 25.—Closing an exciting campaign during which the wives of several candidates at Tokio made personal visits and appeals to the voters, a general election was held today throughout the Japanese empire to choose a new house of representatives. The last house was dissolved by the emperor on Christmas day, 1914, because of its refusal to ratify the military program of the cabinet. Today's election therefore not only brings in a new house but decides the fate of the cabinet headed by Count Shigenobu Okuma.

Cabinet Might Have to Retire. In the last diet the ministry was opposed by a majority and should this majority reported by the Seiyukai or conservative party be returned, the cabinet might have to retire from office.

According to latest forecasts, however the independents are likely to be increased from 12 to 40 and thus hold the balance in the house.

The campaign has been the most exciting and expensive in the history of Japan. The candidates employed thousands of canvassers and there were daily rallies in the streets and halls throughout the entire country. The growth of democracy was evidenced by an increased appeal to the reason of the voters. Premier Okuma made a whirlwind campaign, speaking from a special train, while leaders like Yukio Ozaki, the minister of justice, distributed their views by phonograph.

Insists on Army Increase. The government insisted upon an increase in the army of two divisions and Baron Kato, the foreign minister, declared that the adoption of this measure would not affect Japan's relations with the other powers. The Seiyukai contended that the success of the government in pushing this measure through would be a blow to the constitutionalism.

Indications before the election were that the contest would be exceedingly close.

## DIRECT MORGENTHAU TO ASK PROTECTION FOR MISSIONARIES

Consul Smith Notices State Department Lives of Americans in Urmiah, Persia, Are Endangered.

Washington, March 24.—Ambassador Morgenthau at Constantinople was directed by the state department today to ask protection from the Turkish government for American missionaries and refugees reported in peril at Urmiah, Persia. Secretary Bryan cabled Ambassador Morgenthau after official notification reached the department from American Consul F. W. Smith, stationed at Batou, Russia, that the lives of Americans at Urmiah were endangered and that an attack upon the American mission there had been led by the Turkish consul Raghib Bey, at the head of 700 Askaris. Consul Smith's message came from Constantinople.

How to get relief to the imperiled Americans in such a remote spot was seriously considered by officials of the department. The nearest American ships, it was found, were the cruisers Tennessee and North Carolina, in Mediterranean waters and it would be geographically impossible for them to get to the scene. It determined, therefore to make immediate representations to the Turkish government.

## AMERICANS BEGIN TO BET IN FAVOR OF NEGRO PUGILIST

Warm Weather Gives Fighters First Opportunity to Work in the Open Air.

Havana, Mar. 24.—Warm weather today gave Jack Johnson and Jess Willard the first opportunity in several days to work in the open air in training for their battle for the world's heavy-weight championship on April 4th. Both pugilists drew crowds of people who were anxious to see them at work. Willard trained at Miramar in the presence of 500 spectators, a third of whom were women. Johnson declared that he could fight today if necessary and that within another week he would be in perfect condition.

Americans have begun to bet in favor of Johnson, offering small sums at 11 to 5. Thus far there is only a fair demand for seats at the championship fight. Harry N. Frazee, principal backer of the bout syndicate, arrived here today and took personal charge of affairs.

Alfred G. Vanderbilt, who is here on the yacht Wayfarer, visited both training camps today. He is planning a large party for the big battle.

## SUBJECT TA SENDERS RISK

Washington, March 24.—Parcel post consignments of food or merchandise to be sent from the United States into warring European countries are subject to the same risk of seizure and detention as ordinary shipments by freight or express. Postmaster General Burleson today made public a ruling in which attention was called to this fact and postmasters were directed to accept such shipments only "at sender's risk."

## TWO BRITISH AIRMEN RAID SUBMARINE YARDS

### CLAIM TO HAVE DAMAGED TWO DIVERS AND SET WORKS ON FIRE

Another Effort in Flanders is Threatened by Germans—Big Battle is in Progress in the Carpathians—Check Russ Advance on Tilsit.

London, Mar. 24.—(10:25 p. m.)—A British air raid on Hoboken, near Antwerp, where the Germans are constructing submarines; another threatened effort by the Germans in Flanders and heavy fighting in the Carpathians are the outstanding features of today's war news.

Only Two Reach Mark. Five British airmen starting from Dunkirk took part in the raid on the submarine yards, but only two of them reached the mark. Two were obliged to turn back owing to the thick weather and a third was compelled to land in Holland because of engine trouble and was interned.

According to a report issued by the British admiralty, two of the five submarines which were observed on the slips were damaged and the works set afire. Prior to the war this plant was known as the Cockerill works and belonged to a British company. When the Germans took the plant over a high fence was erected around it and no Belgian was allowed to enter. Workmen were brought from Germany to build the submarines. It is pointed out that these had to violate the neutrality of Holland to pass down the Scheldt to the sea but this was easy of accomplishment as they would pass the Dutch forts submerged. Despatches from the Dutch frontier say that seven German airmen attacked the British raiders but were outwitted.

Prepare for Another Effort. In the same region it is reported that the Germans are preparing for another supreme effort in Flanders. Already there has been considerable fighting along the Yser. The Germans having bombarded Neuport and Dixmude, while the Belgians have made progress along both banks of the river.

The big battle of the moment, however, is in progress between Dukla Pass and Usok Pass in the Carpathians, where, in their official communication the Russians claimed to have captured a number of Austrians and to have made a general advance. Austrian correspondents declare that this battle is likely to continue for some time. It is possible that the Russians will use part of the troops released by the fall of Przemyśl in an endeavor to bring the battle to an end.

Drive Russ Toward Frontier. The Austrians have developed a fresh offensive in Bukovina to which territory they some days ago sent reinforcements and have, according to their account, driven the Russians back towards the frontier and removed the immediate menace of Czernowitz. On the other extreme wing of the eastern front the Germans have re-occupied Memel with the assistance of their warships, which have since bombarded the roads by which the Russians also apparently have checked the Russian advance on Tilsit.

Unfavorable weather is still interfering with the operations of the allied fleet in the Dardanelles.

## GEN. SCOTT AND PIUTE INDIAN PRISONERS ARRIVE AT SALT LAKE

SALT LAKE CITY, Utah, March 24.—General Scott and the Indians who surrendered to him near Bluff, Utah, several days ago, arrived here this afternoon at three o'clock. The Indians were at once turned over to the United States civil authorities. Col. R. E. L. Miehle, Orderly Paul Randolph, United States Marshal Nebeker, Indian Agent L. D. Creel, Chief Bzove, a Navajo interpreter and the Piutes composed the party.

The Indians brought here are Old Poik, Old Posey, Tse-Ne-Gat (Everett Hatch) and a son of Old Posey. They were locked in the county jail with four other members of their tribe who were captured in the first day's fight with the redskins.

## WEATHER FORECAST AND TEMPERATURES.

Washington, March 24.—Illinois—Cloudy Thursday; Friday, snow or rain in south and cloudy in the north, colder.

Temperatures. The current, maximum and minimum temperatures recorded Wednesday were:

## GREED PERILS GRAIN CROPS

Department Cites Danger to United States if Exports Continue Until New Grain Comes In

Washington, D. C., March 22.—Warning that the present heavy exports to European nations of American wheat and flour cannot be continued without endangering the wheat supplies for food and seed requirements at home was contained today in the department of agriculture's agricultural bulletin. In the opinion of the department's experts exportation at the same rate during December, January, and February until the coming of the new wheat would encroach upon normal domestic needs.—From Chicago Tribune, March 23, 1915, page 4.

### The Chicago Liquor Fight.

A mass meeting of religious forces will be held in Chicago tomorrow to inaugurate a campaign to make Chicago "dry" in 1916. The campaign is one of the most important ever launched in a big city. Up to the present it had seemed hopeless to wipe out liquor in Chicago. While the rum element is not greatly excited over the campaign, it is said that the fight will spread to all the churches before the next election. The Catholics, Baptists, Methodists, Episcopalians, [Christian] Disciples, Congregationalists and Lutherans have united their forces in the attempt to make the city dry next year. One thousand volunteer speakers are being enlisted, and 10,000 canvassers will be utilized. It has been decided to make Sunday May 2, a special day of celebration, as "Dry Chicago Sunday," when the work will be under way and at its zenith. When enough votes are secured and enough public sentiment aroused to make a metropolis like Chicago dry, national prohibition will be well in sight.

### Bloomington Wants More Funds.

In Bloomington the adjustment which must come after a city has voted out a large number of saloons and is minus license money, is now under way. The city officials there have been considering during recent weeks various plans for raising revenue. The most recent idea advanced is to levy a special tax or charge upon merchants who use the space beneath the sidewalks in the business district, or who occupy any of the sidewalk with signs, show cases or goods. The matter has not yet been decided, but the merchants seem to be very much of one opinion, that some other way of raising revenue would be more satisfactory.

### Y. M. C. A. Needs Friends.

It is an open secret that the local Y. M. C. A. is not in a satisfactory financial condition. There is a possibility that the institution may close unless friends rally to its support. In other cities aid other than subscriptions is necessary unless the institution is endowed. The same rule is true here. The association certainly has a field for work here and it would be a loss to the community if closed.

### Circuit Judge Re-nominated.

The Democratic judicial convention at Springfield Wednesday which promised to develop a good deal of factional feeling was handled in such a way that the party ostensibly at least presents a united front. The renomination of Judges Creighton, Burton and Jones was expected although the contesting delegation in Sangamon county is said to have been the result of a certain amount of anti-Creighton feeling. However the credentials committee cared for the case in such a diplomatic way that both sides were extended the courtesy of places in the convention. Judge Creighton's record on the bench has been long and honorable and Judge Jones and Judge Burton in much briefer service have given evidence of strong judicial ability. In this district with a normal majority of about 6000 the Democrats naturally feel rather safe in prophesying victory for their candidates.

### MASS TROOPS IN TYROL.

London, March 23.—(3:45 a. m.)—A Rome despatch to the Daily News says that half a million Austrian troops are massed in southern Tyrol and Trentino, indicating a fear of invasion. Virtually all the villages between Sugana and Lake Garda have been evacuated by their inhabitants and many houses along the front have been blown up. Batteries have been posted at every point of vantage and heavy guns have been mounted at an altitude of about seven thousand feet.

### CABLES NOTE TO TOKIO.

Tokio, March 23.—The chief points of the American communication addressed to Japan concerning Japan's demands on China have been cabled to Tokio by the Japanese ambassador at Washington, Viscount Chinda, who has been instructed to explain that Japan's position does not conflict with the American agreement. The American Ambassador George W. Guthrie has had a conference with Baron Kato, the foreign minister. Japan's documentary reply will probably be withheld until after the arrival of the text of the American note.

### FALL ON PRZEMYSL HAS DEPRESSING EFFECT.

Venice, via London, March 24.—(9:40 p. m.)—The fall of Przemyśl has exercised a depressing effect through Austria-Hungary according to advices here. Especially in this case in Hungary, where the danger of a Russian invasion has greatly increased. The newspapers however are united in declaring the situation in Galicia and the Carpathians to be absolutely unaffected by the loss of the fortress.

## OVERWORK BRINGS BAD RESULTS TO HEALTH

Fatigue Becomes a Poison to the System and Period of Rest Is Needed.

In the April American Magazine Ida M. Tarbell writes another article in her new business series entitled, "The Golden Rule in Business." This month's article takes up the length of the working day. Many interesting points and stories are brought out showing the baneful effects of too long a working day. On the subject of how fatigue wears out the human body, Miss Tarbell writes in part as follows:

"Men and women come in the morning to their tasks with a spring of fresh energy within them. Little by little during the hours of labor they empty that spring. When it is dry they must draw from the forces which should be untouched. By some strange chemistry which no one understands too well, these intrusions on the physical forces which should be inviolate produce in the human system a true toxic condition—fatigue poison, auto-poison the scientists call it.

"If this fatigue poison passes a point where the period of rest following is not equal to the task of throwing it off and filling afresh the spring of energy, the man goes back to his toil a little unfit; the longer he goes on the more unfit he becomes. Slowly the poison invades his system. The repairing forces—food, relaxation, pleasures and sleep—come less and less equal to the task. The man becomes more and more open to the attack of disease; less and less able to do his work; unfit to improve upon it; unable to grow. He is an unsafe man, too, one not to be trusted among machines in dangerous places. The man has been poisoned into unfitness by the slow accumulation of fatigue poison which he could not throw off.

It was not worth while which did this. It was too much work. He needed the work to keep him fit. Without it or its equivalent, a regular physical exercise, his spring of energy would have as surely deteriorated as it did from overwork. The spring of energy standing idle would have soured within him.

"It has taken years of observation and experiment to establish with anything like scientific accuracy the baneful effects of the too long day. This has been done finally with a completeness which the courts are recognizing. Moreover, in establishing these facts there have been discoveries made of the effects of the shorter day which have been as heartening as they have been surprising. They are discoveries which upset all the old theories about hours.

"Briefly put they amount to this: An eight hour day in a well managed shop yields as large a quantity of work as a ten hour day, and cuts out almost entirely certain irritations and interruptions which always have characterized the longer work period. As for labor, it has become an axiom in its circle that 'shortening the day increases the pay.' There is many a manufacturer that will tell you that shortening the day increases the profits."

## IOWA HOUSE PASSES ROSTRICT BILL TO REGULATE LOBBYING

Would License Lobbyists and Hold Them Under Close Restrictions in Exerting Influence on Pending Legislation.

Des Moines, Iowa, Mar. 23.—A drastic measure for the regulation of lobbying in the legislature was passed by the house this afternoon by a vote of 82 to 7. By its provisions lobbyists are licensed by the state and held under close restrictions in exerting influence on pending legislation. Following are the provisions of the bill.

Legislative counselor agents must register with the secretary of state and obtain certificate. Information must be given of residence, business, person or corporation employed by and legislation involved.

Lobbyists forbidden approaching legislators on the floor of either house.

Corporations or persons employing lobbyists to report to the secretary of state within two months of the close of each session all disbursements for influencing legislation and an itemized account of expenditures.

State employees forbidden to urge raise in their own salaries or others by solicitation of members or before committees.

Fine not to exceed \$1,000 or one year in jail for violation of law.

## CHICAGO'S BRAVEST POLICEMAN IS CHARGED WITH TAKING BRIBE

CHICAGO, March 24.—Sergeant James McDermott of the Police Department to whom a gold hero medal for being the bravest policeman in Chicago was awarded two years ago, today was cited to appear before the police trial board on charges of taking a bribe.

It is charged that McDermott threatened to arrest Anton Trost on a charge of larceny unless Trost paid \$15. Trost asserted that he paid McDermott and a private detective \$120 and then complained to the deputy superintendent of police.

## BOWLING CONGRESS.

Peoria, Ill., Mar. 24.—The Barry Kettlers of Chicago with 2,907 maintained their lead for first place at the tournament of the American bowling congress today.

H. Allen and R. Allen of Detroit lead in the doubles with a score of 1,297. Walter Cook heads the individuals with 697 and E. J. Kelly of Chicago tops the all-events with 1,870.

## SHIPMENT OF BREADSTUFFS ABROAD SHOWS BIG INCREASE

Department of Commerce Figures For Past Eight Months Show Greatest Increase in Wheat.

Washington, March 24.—American breadstuffs worth \$357,091,823 were shipped abroad during the eight months period ending Feb. 28th, last as compared with \$115,215,881 for the same period of the preceding year. Figures given out today by the department of commerce showed the greatest increase was in wheat exports, which rose from \$67,654,608 a year ago to \$23,295,142.

For last month alone the breadstuffs export totaled \$62,875,959, compared with \$8,772,255 in February, 1914, and the wheat export increased from \$3,392,895 to \$38,399,992.

The department's table do not show the destination of these shipments, although it is known that the great bulk of them went to feed the soldiers and civilian population of the belligerent countries of Europe.

Exports of corn and oats also leaped upward by millions of dollars last month and the eight month period and in February cotton shipments showed an increase of approximately \$20,000,000 over the same month a year ago. The total of cotton exports for the eight month period however, fell below the 1914 figures by more than \$200,000,000 the respective amounts being, for 1914, \$498,910,358; for 1915, \$243,947,192.

Some idea of the part American beef is playing in feeding the men in the trenches may be gained from the fact that exports of fresh beef increased last month to \$17,813,161 from \$13,845 in February the preceding year, while during the eight month period the total export was \$51,000,000 greater than in 1914. Canned beef valued at \$7,164,720 went abroad last month as against \$243,766 a year ago.

## REPORT IMPENDING BATTLE FOR THE POSSESSION OF MATAMOROS

Some Despatches Indicate That Skirmishes Have Already Taken Place.

Washington, March 24.—Reports to the state department and to the Mexican agencies here late today told of an impending battle for possession of Matamoros, the port across the Rio Grande from Brownsville, Texas, which apparently is to be the scene of the first real fight of the Villa campaign against the east coast of Mexico. Some of the despatches indicated that skirmishes had already taken place.

According to a statement issued by the Carranza agency, the citizens of Matamoros at a public mass meeting today determined to organize to support General Nafarrate, the Carranza commander who was said to have a garrison of 3,000 men entrenched and provided with artillery and machine guns. Generals Castro and Delara were said to be on the way with reinforcements. A state department despatch from Brownsville announced that the Villa force marching against Matamoros was eight thousand strong and had reached a point very near the town.

Secretary Bryan and Secretary Daniels continued today to inquire into conditions in Yucata, where the sisal crop upon which American two manufacturers depend is imperiled.

Delegations of independent tire manufacturers visited the state department urging that everything possible be done to assure safety and transportation of the crop.

## TORPEDO BOAT DESTROYERS.

Work They Are Supposed to Perform in Time of War.

As the name implies, torpedo boat destroyers were originally built to combat the smaller torpedo boat, which had become such a serious menace to the battleships and the large cruisers that searchlights and rapid fire guns could not be depended upon for protection, says a writer in Scribner's Magazine. Gradually, however, the duties of the destroyer were extended until they included all that was formerly done by the torpedo boat and much besides.

The mere fact that a modern destroyer is three or four times as large as one of the earlier boats renders it so much more seaworthy and capable of carrying so much more fuel that the radius of action of torpedo boat craft has been enormously increased, and they have become more and more dangerous to an enemy's fleet.

The duties of a modern flotilla may be tabulated in this way:

First.—Scouting. This comprises locating and reporting the position of the enemy and keeping in touch with him as long as may be necessary.

Second.—Protection of one's own fleet from night attacks of the enemy's destroyers. This includes not only locating and reporting the position of the hostile torpedo craft, but, if necessary, attacking them with your guns and sinking or driving them away before they can force home an attack against battleships.

Third.—Attacking the battleships of the enemy with your torpedoes. This is, of course, the paramount duty of every vessel in the flotilla.

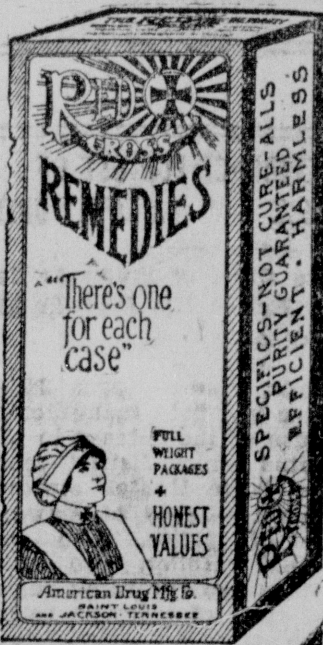

Fourth.—In addition to the above "regular" duties, destroyers are frequently used in what might be called "gunboat work"—patrolling the enemy's coast, running up his rivers where the big ships cannot go, overtaking and capturing his merchant vessels and firing on troops and field batteries ashore.

Read the Journal, 10c per week.

## ANNOUNCEMENT

WE take this means of advising our customers and the public that we have secured the exclusive local agency for the RED CROSS LINE, consisting of high class Family Remedies, Toilet Articles, Flavoring Extracts, Ground Spices, School Tablets, etc.

## SCOTT'S THEATRE

TWO DAYS—THURSDAY AND FRIDAY

MARCH 25th and 26th

A positive guarantee that this picture has never been shown in Jacksonville before. This is the original QUO VADIS in 8 reels.

The World's Masterpiece in PHOTO-DRAMA  
THRILLING—INSPIRING

"Masterly; Highly Realistic."  
—N. Y. Times.  
"A marvel in photographs."  
—N. Y. Press.

Since George Kleine made his enormous success of the Cines photo-drama "Quo Vadis", a host of cheap imitators have entered the field of competition. However, as the Kleine production includes eight wonderful reels and is only produced in the high class theatres of the country and has never been leased for state rights or ordinary moving picture houses, the general public have been quick to discriminate between the big and the little "Quo Vadis." In the big cities of the East, Mr. Kleine's production was taken up by the fashionable society and theatre parties of the "four hundred" were a frequent occurrence at the Astor Theatre in New York. The George Kleine production of "Quo Vadis" will be the attraction at Scott's theatre. Shows will start promptly at 2:30, 4:30, 6:30, and 8:30. Will run through the supper hour. Adults, 20c; Children, 10c.

With the first show only these five reels will be Given:  
Francis X. Bushman in "THE AMBITION OF THE BARON," Essayay two part drama.  
"THE YOUNG MAN WHO FIGURED," Vitagraph Comedy.  
"PATSY'S VACATION," Lubin Comedy.

### ILLINOIS COLLEGE WILL MEET AUGUSTANA FRIDAY IN DEBATE

Contest Here Friday Evening at 8 O'clock With Phi Alpha Team as Affirmative—Sigma Pi Trio to Uphold Negative at Monmouth.

For students and friends of Illinois college interest for the next two days will be centered on the annual interscholastic debate, which will be held Friday evening in Jacksonville, Monmouth and Rock Island, with an affirmative team from Illinois, Monmouth and Augustana colleges debating a negative team from the same schools on the question: "Resolved, that labor organizations should be exempt from the Sherman Anti-Trust law." The debate here will be held tomorrow evening at 8 o'clock in Jones Memorial building. The affirmative team composed of Phi Alpha debaters will meet the negative from Augustana college and from all indications, the contest will be a warm one. The Illinois debaters will be Ray H. Bracewell, Robert Nesmith and Thomas Mangier, with Ray Berry as alternate.

of the U. of I. Law school at sources of Augustana college, but judging from the fact that the average of students is higher than the average and taking into account the good work done last year the team from that school will be no mean opponent. It will consist of L. E. Jones, leader; Miss Esther Youngberg and Miss Gladys Dunbarry, with Leo DeLong as alternate. The debaters will arrive in Jacksonville at 2:08 o'clock this afternoon.

The judges will be Dr. George Kreider and Senator E. S. Smith of Springfield and Prof. William Hale of the University Law school at Urbana.

For the Monmouth debate Illinois has the advantage of a team which proved stronger in the inter-society contest and which from every indication will be a good match for the rival Philo and Aciretan literary societies of Monmouth college. Clay Apple, Clifford Dixon and Earl Harman will leave for Monmouth early Friday morning, taking Edward Bulward as alternate. The same evening, a negative team from Monmouth will go to Rock Island to meet Augustana college in support of the affirmative.

## EASTER MILLINERY.

For the lady who wants style and exclusiveness in moderately priced hat our showing of imported millinery will strongly appeal.  
Carroll Millinery Parlors,  
859 Routt Street.

## I. O. O. F. SCHOOL BEGINS

WORK IN GOOD FASHION.  
All portions of the Odd Fellows' ritual were exemplified yesterday evening in Urania hall at the school of instruction in charge of W. H. Pease, grand master of Illinois, and H. M. Blood, chief of examiners and instructors. The work was carried out by the degree staff of the two lodges in unison. Instruction will be continued this afternoon at a meeting announced for 2 o'clock at Odd Fellows' temple. Tonight at the Illini rooms a class will be received at a combined session of Illini and Urania lodges.

## ILLINOIS COLLEGE vs. AUGUSTANA, Friday night at 8: Jones Building.

## CIVIC LEAGUE MEETING AT PUBLIC LIBRARY

### MRS. CATHERINE H. CONOVER PASSES AWAY AFTER LONG ILLNESS

Former Resident of Litterberry Dies at Home on South Church street—Funeral Friday Morning.

Mrs. Catherine Henderson Conover, wife of Fred Conover, died Wednesday afternoon at one o'clock at the family residence, 735 South Church street, after an illness of about seven months. She was born near Litterberry, January 3, 1835, being a daughter of P. W. and Harriet Henderson. She received her education in the public schools of Litterberry. She was married December 23, 1903 to Fred Conover. She was a woman of sweet disposition and loved by all who knew her. She had practically spent her entire life in this community and she will be greatly missed by her many friends.

She was preceded in death by an infant daughter, Vivian Marie, and her father, who passed away three years ago. She is survived by her husband, three sons, Edward, Billy and Raymond, also her mother, Mrs. Harriett Henderson of this city, two brothers, John of Prentice, and Edwin at home, and one sister, Carrie Henderson at home.

Funeral services will be conducted from the Arcadia church Friday morning at 11 o'clock and interment will be made in the Arcadia cemetery.

#### Clark.

Miss Jessie Allen received word Wednesday morning of the death of Mrs. Maria Clark of Carrollton. Mrs. Clark was about eighty years of age. She had been ill for some time and Tuesday grew gradually worse until the final end came. She is survived by two sons, one daughter and other relatives. Mrs. John King of West College street and Mrs. Albert Moore of South Kosciusko street are nieces of the deceased.

Funeral services will be held Friday afternoon in Carrollton. Several relatives here expect to attend.

#### Necce.

Brief but impressive funeral services for the late Madison C. Necce were held at the Pulliam cemetery, five miles south of Waverly, Tuesday morning in charge of Rev. Mr. Johnson, pastor of the Baptist church of Waverly. The casket was opened at the cemetery and the remains viewed by a large number of friends and relatives. Mrs. Orrin Moffet, Mrs. Lula Hamilton, Henry Pinkerton and Mrs. Forsythe sang, "O Think of the Home Over There" and "In the Sweet Bye and Bye". After a short scripture reading and prayer the body was committed to the grave.

### FUNERALS

#### Tribble.

The remains of Helen Lucille, the little daughter of Mr. and Mrs. Newton Tribble were taken Wednesday morning to Winchester where brief services were held at the cemetery by Rev. G. W. Murray in the presence of quite a gathering of relatives and friends of the family. The beautiful floral tributes were cared for by Mrs. Jack Fanning and Mrs. Cera Settles.

The bearers were Albert Lawson, Robert Hayes, Carl Suiter and Elmer Hayes. Interment was made in the Winchester cemetery.

### RAILROADS TO ASK PERMISSION TO REDUCE RATES TO THE COAST

Seek to Re-Establish Competitive Market Which Has Been Disarranged Since the Opening of the Canal.

Chicago, March 24.—Railroad lines to the Pacific coast will appear before the inter-state commerce commission April 12th, to ask permission to reduce freight rates on commodities from Chicago and middle western states to the coast level of water charges from the eastern seaboard through the canal, according to an announcement today by Edward Chambers, superintendent of traffic for the Atchafalaya, Topeka & Santa Fe railroad.

The proposed reductions would affect the entire trade between here and the coast states and would re-establish the competitive market which has been disarranged since the opening of the canal, according to the railroad officials. The hearing will be held in Washington.

"What was known as the trans-continental rate case proper included only 193 articles," said Mr. Chambers. Since the victory in that case thousands of shippers of the central states have asked for a sweeping reduction."

#### TURKS FORTIFYING

Paris, Mar. 24.—(11:10 p. m.)—A Havas despatch from Athens says the Turks are fortifying Luleburgas, 45 miles southeast of Adrianople, and other places, in the fear of a possible attack by Bulgaria. An army is training at Luleburgas under German officers. Heavy artillery has been sent from Constantinople to the Durkos district on the Black Sea.

#### ASKS PREVENTION OF POSSIBLE RIOTS.

Peking, Mar. 25.—President Yuan Kai has sent telegraphic messages to the governors of the various provinces instructing them to prevent possible repetitions of the Shanghai riots. He has informed them the conferences between the representatives of China and Japan respecting Japan's demands are proceeding satisfactorily.

Read the Journal, 10c a week.

### ILLINOIS STARTS BASE BALL PRACTICE

HAS ANNOUNCED SCHEDULE FOR COMING SEASON.

Several Old Men Will be in the Line up and Prospects Bright for a Strong Nine—Team Will Open Season April 15 at Eureka.

With the coming of the spring like days, the ball tossers at Illinois college have begun to limber up and Wednesday the first practice was held on Illinois field. Judging from the old men who will be in the lineup this season, the coming weeks should see a good article of ball dished up by the nine of Old Illinois. The college loses Banks, short stop last year and Clifton, the nifty pitcher of the 1914 squad. In the person of Urbane, the management believes they have a good man to take Clifton's place and Daniels and Quisenberry will probably be given a try out for the pitcher's box. A probable lineup will be:

Darragh, catcher.  
 Urbane, pitcher.  
 Atchison, first base.  
 Harmon, second base.  
 Gary, third base.  
 Pierce, right field.  
 Stewart, center field.  
 Apple, left field.  
 Other players are Daniels, Brewster, Jackson, Bedale, Baker, Quisenberry.

#### Schedule Announced.

Manager Warren Pierce has announced the following schedule. It is expected to get two more games with the state normal here April 30 and there May 7 this will make a schedule of eleven games.

Thursday, April 15.—Eureka at Eureka.  
 Friday, April 16.—Bradley at Peoria.  
 Saturday, April 24.—Wesleyan at Jacksonville.  
 Saturday, May 1.—Carthage at Carthage.  
 Friday, May 7.—Wesleyan at Bloomington.  
 Thursday, May 13.—E. Normal at Charleston.  
 Friday, May 14.—Millikin at Decatur.  
 Friday, May 28.—E. Normal at Jacksonville.  
 Monday, June 7.—Millikin at Jacksonville.

### COURT HEARS ARGUMENTS ON BECKER'S APPEAL FOR NEW TRIAL

Prisoner's Attorney Asks Court of Appeals to Reverse Judgment of Conviction—To Continue Case Today.

Albany, N. Y., March 24.—Another effort to save the life of former Police Lieutenant Charles Becker of New York, who is under sentence of death for instigating the murder of Herman Rosenthal, was made before the court of appeals today. Martin T. Monton, Becker's attorney asked the court to reverse the judgment of conviction resulting from the second trial and to give Becker another chance to defend himself before a jury.

Mrs. Becker Takes Notes.  
 During the three hour argument, Mrs. Becker, wife of the ex-lieutenant, sat in the court room and took frequent notes.

The case will be continued tomorrow, when Mr. Monton will conclude his argument and assistant District Attorney Robert C. Taylor will argue against granting a new trial. Monton attacked the testimony of James Marshall, a negro witness at the second trial who came into prominence recently by reason of conflicting affidavits made by him concerning what he knew of the homicide.

"Marshall lied at the second trial," Monton said. "He testified then that he saw Becker conferring with Rose, Schepps and Webber, accomplices, before the murder, but he was not produced at the first trial. A short time ago he gave an affidavit in Philadelphia that his testimony was false. He virtually substantiated that. How can this court place credence on the story of such a witness?"

Flays Becker's Press Agent.  
 Charles B. Plitt, Jr., Becker's press agent, was characterized by Monton as a "lunatic and a perjurer, if a person can be both."

Monton asked the court not to consider his testimony seriously. Plitt testified at the second trial that Becker had told him to be in the vicinity of Times Square on the night of the murder as something might happen.

#### HUEY DEFEATS DE ORE.

Chicago, March 24.—William Huey of Chicago tonight defeated Alfredo DeOre of New York 7-3 in 62 innings in the world's championship three cushion billiard tournament and thereby all but overhauled John Daly of New York for the lead. Daly has won eight games and lost one, while Huey has won 8 and lost 2. Huey will play Daly tomorrow and a victory would put him in the lead while a defeat would virtually eliminate him from the championship. In tonight's game Huey made a high run of six and DeOre 5.

#### WELSH OUTPOINTS DROUCLARD

Windsor, Ont., March 24.—Fredie Welsh, light-weight champion outpointed Patsy Drouclard of Windsor, who claims the Canadian championship in that class in an eight round bout here tonight. Welsh had everything his own way for five rounds. In the last three the Canadian carried the fight to the champion.

## Comfortable, Stylish, Serviceable

In these three most desirable features Dutchess Trousers are supreme.

Learn what real trouser satisfaction is. Over two million men know from wearing them, that Dutchess Trousers give most for the money—the best values, the best styles, the best fit—best from every point of view. Even twice the price cannot secure more.

## The New Spring Styles

in Dutchess Trousers are sure to satisfy every man. From the serious minded "heavy weight" who still sticks to the conservative, to the dapper young chap, always eager for the "latest kinks." In cut and finish for every occasion we have exactly suitable new models.

Dutchess Trousers are sure to give you the utmost comfort, style and service for your money.

We can fit you perfectly and suit your purse at the same time.

The famous Dutchess Money Warranty speaks for itself.

### COLLISION AT BOOTH DELAYS ALTON HUMMER

Box Cars Loose From Siding Mean Close Call for Chicago Train Wednesday Morning.

The Chicago & Alton "Red Hummer" arrived in Jacksonville more than two hours late Wednesday morning as the result of an accident at Booth, Mo., a small station the other side of Louisiana. Box cars from a siding had in some manner drifted out upon the main track and only by quick use of the emergency brakes was a wreck averted. No passengers were injured, though the engineer and fireman were hurt by jumping. The fireman escaped with a few bruises but the engineer's injuries may prove serious.

#### SINKING OF THE TITANIC.

The Great Mechanical Sinking of the Titanic which is the feature of the remainder of the week at the Grand can be packed in twelve trunks, ready for transportation in twenty minutes. In an hour it can be set up in any theatre and exhibited. It takes Mr. Klien and three assistants to operate it, as well as an electric motor and several other electrical contrivances which he has patented. The production took twelve solid months to build and throughout those posted on mechanics declare, The Titanic to be a veritable eye-opener, when it comes to man's ingenuity.

## INDIGESTION, GAS OR SICK, SOUR STOMACH

Time "Pape's Diapiesin!" In Five Minutes all Stomach Misery is Gone.

"It really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, red belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapiesin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Advertisement.

## CALL TO BATTLE

Send forth your sons to glory—the kind that's red and gory—from cottages and halls; for this, of course, you reared them, to meet the foes and beard them, whenever your country calls. You know not why they're fighting, those armies, at this writing? That really cuts no ice; drive forth your sons like cattle, to perish in the battle, for death is glory's price. The kings, who long for laurels, must have their little quarrels; when they on war decide, 'tis their to roar like lions, 'tis yours to send scions to die where hosts have died, scions to die where hosts have died. The kings, in Kings, in comfort kinging, on thrones sit, elating, to pass the hours away; but humble, heartsick parents must send their James and Clarence and Henry to the fray. No foeman carves or minces the royal dukes or princes—their motto's "Safety First;" but he embattled toilers are sent to meet the spoilers out where the bombshells burst. Send forth your sons to warfare! The state will pay their carfare, and thirteen cents a day! And bid them not to wonder why all this fuss and thunder, nor question while they slay.

## EUROPEAN WAR NOTES

London, March 24.—(8 p. m.)—A despatch from Copenhagen to Reuters' telegram company says:

"Red posters inscribed, 'bread or peace' are continually appearing in towns in the province of Schleswig-Holstein and Hamburg and Luebeck according to a telegram from Woywadt on the German frontier, published in the newspapers of the Danish capital."

"The police remove the placards but they have not succeeded in arresting any of the persons responsible for them."

London, March 24.—(5:37 p. m.)—A large increase in the number of submarines operating in the waters around the British Isles was predicted by Rear-Admiral The Marquis of Bristol, in an address at a meeting in London today of the Institution Naval Architects of which he is president. The lord admiral advocated the equipping of all merchantmen with armament sufficient to deal with submarines. He said that later international action must be taken for the purpose of defining the latitude which submarines should have in their offensive capacity.

Vienna, Via London, March 24.—(10:10 p. m.)—The following official statement on the progress of the war was issued today by the Austrian war office:

"In western Carpathians the battle has developed on a front as far as Uzok and continues with great violence. Strong Russian forces are attacking and positions on the heights are being bitterly fought for."

"In several engagements between the Pruth and the Dniester in the most northerly part of Bukovina the enemy was dislodged from some villages and compelled to retreat toward the frontier. North of Czernowitz, the villages beyond the Pruth, which served the enemy as a basis for operations against the city were cleared of Russians."

"In Poland and west Galicia there has been no change. We have destroyed a Russian pontoon bridge across the lower Dunajec."

## ADVERTISED LETTER.

The following letters remain unclaimed in the post office at Jacksonville for the week ending March 23, 1915:

Allen, J. J.  
Baker, Miss Bonnie D.

Parties calling for these letters will please say "advertised", give date of list and pay one cent each postage due.

When you move or otherwise change your address you should send a written order to the post office for the disposition of your mail, giving your old (or last) address and your new address.

Such orders should be signed by the person whose mail is effected, his lawful representative or the person in whose care the mail is addressed. Convenient cards are furnished free by the government for this purpose, and may be had by applying at the General Delivery window at the post office.

Ralph I. Dunlap,  
Postmaster.

## IDE ENGINE SOLD.

Shipment will soon be made of the Ide engine which has been part of the equipment at the municipal light plant. Recently the city sold the engine to a firm at Dayton, O., after they had sent a man here to inspect it. The price of \$400 was secured and early shipment of the engine is to be made. It has done good service in the plant here for a long period, being used in connection with the business district circuit. The additions made to the plant, however, during the past year made further use of the engine unnecessary, and there was no occasion either to keep it for reserve. Although it had been in service for a considerable time, it was in good condition and a very favorable price was secured for it.

## SOLD MANY HOGS.

Walter Brainer of the Crackers Bend neighborhood was in the city Wednesday to deliver the remainder of a lot of hogs recently sold to the Jacksonville Packing Co. With the delivery made yesterday there has been sold and delivered to the above mentioned company by the firm of Brainer & Turley within the past four months about nineteen carloads or more than 1500 animals. Douglas Turley is the associate of Mr. Brainer in the business.

## WILL MARK AUTOMOBILE TRAILS IN MORGAN COUNTY

Department of Rural Affairs of Chamber of Commerce Will Seek to Raise Funds for This Purpose—Only Small Contributions Will be Asked.

The department of rural affairs of the Chamber of Commerce is endeavoring to raise funds by popular subscription to mark auto trails leading in and out of Jacksonville in every direction. There are three excellent reasons why this should be done, first to bring tourists to town for auto travelers always prefer to follow a well marked trail and Jacksonville wants every car that comes anywhere near the city to come into town as the man in the auto and his family and friends are always good spenders—every city the size of Jacksonville which entertains a car on tour reaps profits, secondly, as a matter of convenience for our home folks who take trips into the country for if the plan proposed can be carried out there will be a well marked trail over the best roads to every town and hamlet in Morgan county and into all the adjoining counties; and last, but by no means least to help develop the road conditions on the routes marked as experience has proved that where a popular trail is marked the roads are given the best attention by road officers and adjoining land owners.

It is proposed to mark the trails in the same manner that the Burlington Way is marked—and this is the best marked trail in the whole country—and mark every pole so that he who runs may read.

The Burlington Way is already marked from St. Louis to Cedar Rapids and is soon to be extended to St. Paul. The "Orange and White Way" is a joy to auto tourists and the travel over it is proving the good results of marking trails.

The first trail to be marked will be the Pikes Peak Ocean to Ocean Highway, a trans-continental route shorter than any other, which is marked from San Francisco to Jacksonville via Salt Lake City, Colorado Springs, St. Joseph and Hannibal, Mo., Barry, Griggsville, Valley City, Bluffs and Chapin. Arrangements are completed to mark immediately from Jacksonville via Arnold, Orleans, Alexander, New Bern, Springfield, Decatur, Tascala and Chrisman, Illinois, and Indianapolis to Columbus, Ohio.

The marking used will be uniform and will be a red and a white stripe.

It is proposed to mark the route from Jacksonville via Winchester, Florence and Pittsfield to Louisiana, Mo., there to converge with routes leading west.

If funds are available trails will be marked to Virginia and Chandler, to Sinclair, Prentice and Ashland and to Pisgah, Franklin,

# LUKEMAN BROS.

Retailers of the Finest of Clothing Ready-to-Wear

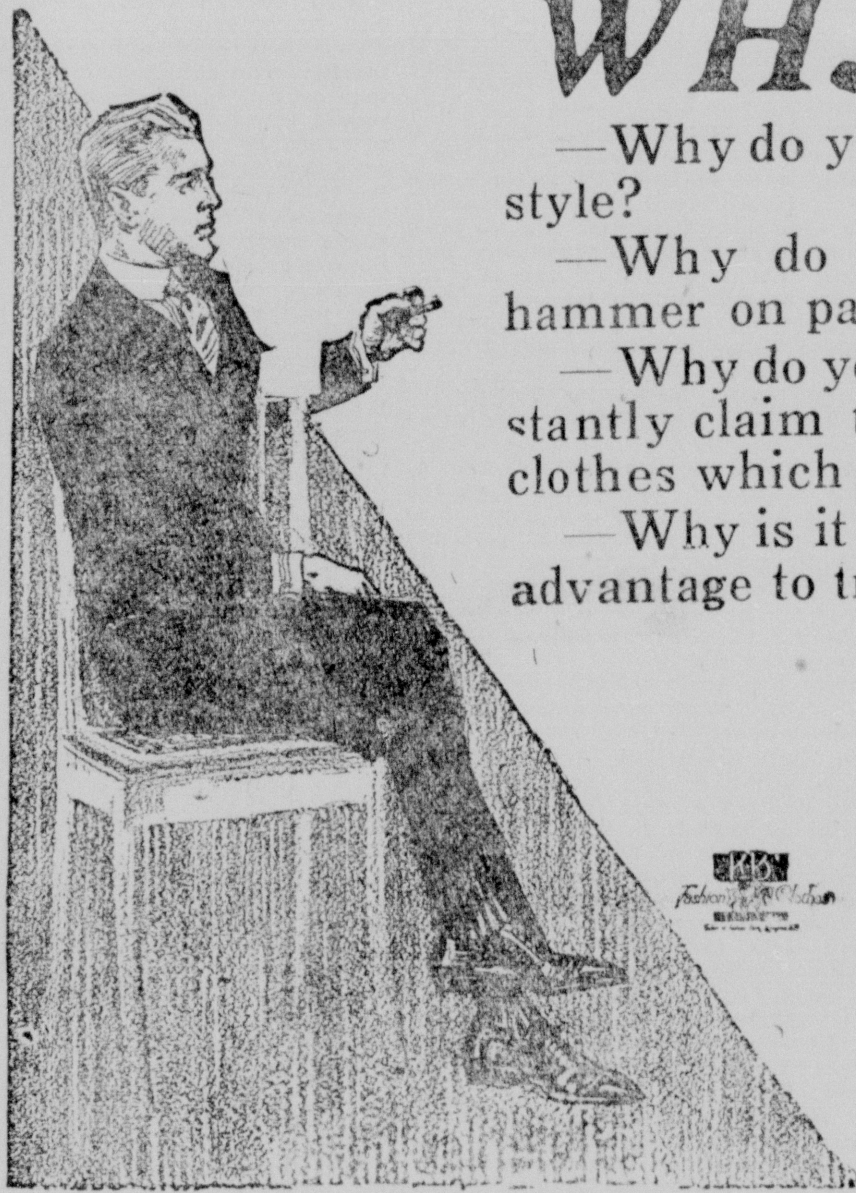

## WHY?

—Why do you suppose we talk style?

—Why do you suppose we hammer on patterns?

—Why do you suppose we constantly claim there are no other clothes which equal ours?

—Why is it to the young man's advantage to trade with us?

A visit to our shop and a glance at our new styles and fashions will answer every inquiry.

Come in.

Waverly and Auburn to connect the coming of lower priced cars and there with the St. Louis-Chicago better roads their use will increase markedly. As a business proposition the marking of trails is even now a matter of great importance and will be far more so in the near future. The importance of marking trails now and thereby inducing the auto driver to get the state aid roads and telephone lines and will be posted with danger and habit of coming to and through Jacksonville should not be overlooked, especially as these trails mean better roads for horse drawn and business is in its infancy. With vehicles as well as motor cars.

Mr. Weber, Secretary of the Chamber of Commerce, is soliciting subscriptions for marking these trails. If those interested will help along even in a small way funds can be secured so as to make Morgan the best marked county in this section.

## FRANK MANN'S SOIL BOOK

## "A Fertile Soil Is The Basis of Profitable Farming"

(Authority for the publication of this and succeeding chapters of Frank Mann's book secured from Prairie Farmer Publishing Company.)

## The Seed Bed.

Too many farmers depend on corn. A good seed bed after the corn or other crop is planted. The most important time to have a fine, prepared seed bed is when the young corn is getting started in its growth. An early vigorous growth in the young plants is important, and this can be secured only when the soil is finely pulverized and reasonably compacted. A good start for the young corn will be reflected in the growth throughout the season and give increased returns at harvest time. There is no way to get ground in good condition except to work it, which should be run over the ground at least twice, and more often if necessary. If the disk is followed by a pulverizer, such as Sterling or Tower, it is possible to get rather lumpy spring plowing in fairly good condition. If the ground was fall-plowed it should be disked as early in the spring as the weeds start and it is dry enough, and further disking should follow at intervals of a week to ten days and continue till planting time. A double disking by lapping the disk one-half is not as efficient as two single diskings with an interval between them. After the first time the disk should be run so as to "split the middles" each time thereby preserving a level surface. These diskings with an interval between them of several days is more effective against insects, weeds and in conserving moisture than is double disking at longer intervals. After two diskings have been given it is better to work the ground with a pulverizer instead of a disk. The pulverizer should be run crosswise of the disking as it tends to further level the ground as well as pulverize it and compact it nearer the surface. If the ground is dry enough to permit it and the pulverizer is run over it several times with intervals of a few days, there will have been formed an excellent seed bed before planting, and more than half the battle with weeds and insects has been won. If the ground has been prepared in this way, and the pulverizer has been used immediately before planting, this field should be absolutely let alone until the corn is about six inches high—no harrowing, nor weeding, and no cultivation until a good job can be done, which means that sufficient fine dirt can be thrown to the row to cover the weeds without covering the corn to the least extent.

It is under these conditions, unnecessary, and to some extent harmful to run a weeder or harrow over corn when sprouting or soon after it is up. The weeder may kill some weeds, but there are enough left to require a good cultivation, and some plants may be injured in the process as to cause freaks and malformations.

## Getting Ahead of the Insects.

To maintain a stand of corn against insects requires that the ground be disked several times before planting time. If the ground is disked in the spring often enough to keep all weed growth down before it gets much above the surface, those insects which require fresh vegetable growth for their feed are practically all destroyed, either by starvation or from the disturbance and exposure. This method has proven very efficient against root aphids, cut worms, web worms and perhaps others. In 1911 a strip used as a check against frequent disking was damaged about one-half by web worms, while a count of 10,000 hills of corn in the field that had been disked four times at regular intervals showed not a single insect injury. This frequent disking may not be possible on land that is not thoroughly drained, or during a wet spring. But if it be done when possible, it will tend to keep at a minimum these insects during the wet season.

Even the white grubs, which have been so disastrous in some parts of the state, seem to be quite well controlled where there is a good rotation and the corn fields kept free from weeds, because the beetle prefers to lay eggs elsewhere than on bare ground or where clover is growing. In a good rotation, and with clean cultivation, the fields are either growing clover or the ground is free from weeds.

**Feed the Squirrels and Birds.**  
To maintain a stand of corn against the enemies that live above ground, it is best to feed them. Bait some shelled corn and scatter on the surface of the field as soon as the corn is planted, especially along the edges and sides, next to grass lands. A bushel will protect from 10 to 20 acres, and is much cheaper feed for birds, squirrels, mice, etc. than seed corn. As you do not want any of this scattered corn to grow, it is necessary to give it considerable heat to kill the germ. If this corn is mostly picked up or eaten before planted corn is out of their reach it is necessary to scatter some more.

A bushel of good seed corn after being planted is worth about \$250 and it will feed no more mice and squirrels than a bushel of 60c corn from the crib.

**Oats.**  
While the soil is the most important factor in securing good oat yields, there are other factors that need attention. These are the quality of seed, the right amount of seed, and the even distribution of the seed.

From the breeder's standpoint ordinary oats are a badly mixed lot

of strains and characteristics, and cannot be considered as purebred. It is probable that some varieties, at least, have within them an inferior strain, that develops as a small oat, with inferior growth and yield, and that this inferior strain can be, to some extent, removed by the fanning mill method, or a screening out of the small oats. It cannot be contended that oats can be bred into a pure strain through any fanning mill selection, nor can any variety be modified in its characteristics, except where such modification comes from the elimination of some quality accompanying size.

## Increasing Yields by Grading.

The first year that Silvermine oats were graded over a sieve having about ten rectangular meshes per linear inch, the loss through the sieve was about 60 per cent. The next year, the loss was 50 per cent; the next year 40 per cent; then 30 per cent; since which the loss varied from 20 to 25 per cent. Before any grading of oats was done, a bushel contained about 800,000 kernels. After five years of grading a bushel of the same oats ungraded contained about 550,000 kernels, showing that there had been a gradual elimination of the small oats. As the number of oats in a bushel had been decreased, it was logical that more bushels of seed would be required for a proper seeding. Some tests were made by sowing different amounts of graded seed in comparison with the small rejected oats, with the following results:

Seed, bushels per acre, small oats, 2½; large oats, 2½; large oats 3½. Number of kernels per acre, small oats, 1,625,000; large oats 1,000,000; large oats, 1,500,000.

Yield per acre bushels: small oats 35; large oats 65; large oats, 80.

The conclusion was drawn, and it has been confirmed by later experience that on good land the best seeding is about one and one-half million kernels of good graded oats per acre. This number may not be the best for all varieties and for other conditions, but it is well worth a farmer's time to grade well his seed oats and ascertain by count what amount of seed is best for his conditions. If there is no compensation from the decrease in the number of kernels per bushel from grading, by using more bushels for seed the grain from grading may be lost. It is not uncommon for some careless farmer to use four bushels of seed oats per acre, of oats that will run one million to the bushel, thus sowing about four million kernels per acre. From any such seeding no reasonable growth nor satisfactory yield is realized.

## Use the Drill.

It is possible to secure rather even distribution both in broadcasting and drilling, but it is easier and safer to depend on the drill. Usually in broadcasted fields may be found many small areas where the oats are much too thick and other areas where they are much too thin, and therefore the yield reduced in both cases. The drill, however, in the hands of a careful man, measures out the grain uniformly and it is placed in the ground systematically and at regular depth, giving an even stand and a more uniform growth. It occasionally happens that drilled oats yield less than broadcasted. This is likely to be the case when too much seed is used in both cases, and probably comes from the fact that more of the oats grow when drilled, and they are thereby thicker than the broadcasted.

## Treatment for Smut.

A necessary requirement for good oat crops with most varieties is that the seed be treated to destroy smut germs. An investigation of a large number of oats field showed that from 5 per cent to 50 per cent of the stalks were blasted by smut, while in fields where the seed had been treated, practically no smut was found. Though some varieties seem quite resistant to this inquiry there is probably no variety which it will not pay to treat.

There are two methods of treatment of smut—the hotwater method, and the formalin method. The hot-water method has been found to be somewhat the more efficient, but the difficulties attending its use makes the formalin method the more desirable to use. Use one pound of 40 per cent solution of formalin to about 40 gallons of water, and with this water wet the oats quite thoroughly, constantly mixing the oats with a shovel, so that all the oats receive some of the water. When well wetted, pile up the oats and cover with wet horse blankets, bags, or anything to prevent the escape of the fumes from the solution. Leave covered from 12 to 24 hours, when they may be spread out to dry, or they may be sown at once, making allowance for any increase in amount from swelling, if there be any. A thorough treatment once in three or four years is usually sufficient.

The custom of growing very early oats of seeding very thin are different methods of adapting the oat crop to the changing soil conditions, and the extreme of either method will not yield the largest crop.

An excellent seed bed for oats can be prepared by plowing the ground in March and working it down well afterwards. It is not every year, however, that this can be done, because of too much soil moisture, and it is not very safe to depend on this plan. If the plowing cannot be done before the regu-

lar time for oat seeding, it is better to prepare the seed bed in the usual way, rather than delay seeding in order to plow.

## Clover.

For many years red clover has been grown on Bois d'Arc farm with but two failures and these were due to grasshoppers. For a few years before the use of phosphate was commenced, it was becoming more difficult to get a good stand on the higher and thinner parts of the fields, and some years there was a partial failure in these places. The phosphate has apparently ended the difficulty, unless the soil should become acid. Heavy seedings have been the custom. When clover was used alone the usual seeding was one bushel of seed to four or five acres of ground. Later years, because the inoculation was so thorough and the volunteer clover so abundant, slightly smaller seedings have been the rule, though a bushel of red clover, alsike clover and timothy mixed is usually used for about six acres. Clover seeding is made with oats or wheat. On the wheat it is sown early in the spring when the soil is in that checked condition it seems likely the seed will become covered with the first rain. If this condition does not obtain, then the wheat ground is harrowed or rolled after seeding clover. When seeded with oats the seed is scattered on the surface and harrowed in.

## Producing Clover Seed.

The problems connected with the

tion, which does the most damage, is reduced to a minimum. On the other hand, those insects especially the bumble bee, which aid in the pollination of clover, also have life habits which are adapted to the life history of the clover.

Under natural conditions, then, the insect pests will develop the first generation in the mature first clover crop, and complete their life history in time to deposit eggs for a largely increased generation in the second clover growth, at which time the bumble bees are ready for work in the process of pollination. If clover be forced too far from its regular life habits, it may be made to avoid both the injurious and beneficial insects. If the first crop be cut too early, this may avoid the insect pests, but the second blooming period will come too early for bumble bee work. No absolute date can be given when the first crop should be cut to meet most favorable conditions in both propositions, but in the altitude of Central Illinois, this average date is about June 15, though it varies with different seasons.

It is notable that better yields of clover seed are secured from rather small fields than from one large ones. This is probably accounted for from the reason that practically the same number of pollinating insects are confined to the smaller areas in their operations.

There are many species of bumble bees and with different habits as to maturity, nesting, etc. Those that nest in trees, and similar places

from legume crops, and this also meets to a large extent those other things that are accomplished by rotation. Any rotation used should be adopted with the dominant idea of the legume crop.

The period of the rotation will depend on the soil requirements. Where nitrogen and vegetable matter are very deficient a short rotation is necessary. Mr. A. P. Schroeder has had excellent results on the poorly unglaciated hill land of Puget Sound, in a four-year rotation of corn, cowpeas, wheat and clover, with both legume crops left on the land plowed under with mineral treatments. Though this rotation has not been run many years, his average yields of grain are exceeding the average yields of the dark prairie corn belt.

Where the soil is not extremely deficient in nitrogen or vegetable matter, a three-year rotation is a good one, consisting of a cultivated grain crop, a small grain crop and the legume crop—corn, oats (or wheat) and clover. On the better corn belt land where nitrogen is not much deficient, but where the vegetable matter in the soil is so far decayed as to have insufficient activity of decomposition, and where the principal effort is to maintain and not largely increase the nitrogen, a four-year rotation will serve quite well until too much further depletion has taken place. On drained land, where the danger of heaving is not too great, a rotation of corn, oats, wheat and clover is a good one. A less desirable rotation is one of corn, oats, and clover, but nitrogen cannot be maintained by these rotations. On land which is not too rich in nitrogen the modified Norfolk rotation of wheat, corn, oats and clover will be better, clover being seeded with the wheat and plowed under for corn. Whether the nitrogen is maintained or increased in any rotation will depend somewhat on the size of the legume crops, and the yield of the grain crops; and it should be the effort to adopt such a rotation as will adjust the amount of nitrogen added by the legume crops to the amount of nitrogen taken out in the grain crops.

It should be well understood that no rotation in itself can maintain fertility because it cannot provide any addition to the supply of mineral elements. If larger crops are grown under a rotation, greater drafts are made on the supply of minerals and soil depletion may go on easier because of the rotation.

A good rotation of crops can be a large factor in economy of labor of both men and horses; but more than mere economy of labor is the fact that rotation permits the distribution of labor over such times that the various processes of seed time and harvest can be more thoroughly and perfectly done. The thorough preparation of the seed bed and care in seeding may be of more value than is the distribution of the labor. The problem of scarcity of labor on the farms would be partly solved by a better distribution of the work throughout the year. There must always be times of scarcity of labor while there are times of surplus.

Where no crops are grown except oats and corn, as is common in parts of corn belt, the preparation of the ground and the seeding of both crops are so near the same time that when there is some delay from wet weather the temptation and almost the necessity is to get the crops in a hasty manner and without sufficient preparation of the soil. This system throws too much of the hard and important work at a time of uncertain weather conditions, when it is likely to be slighted, and is then followed by a period when there is not much work to be done. But a rotation of corn, oats, wheat and clover for the corn belt, while a good rotation for the soil's sake, gives a fairly good distribution of labor throughout the year. If conditions are favorable in early spring the ground may be plowed for oats and a good seed bed prepared in time for sowing. If conditions are not favorable for early plowing the oats may be sown on the stalk field after preparation with the disk, as is the common custom. Oats are likely to be better when the ground is plowed and well worked afterwards, but oats seeding should not be delayed past the usual time for the sake of plowing the ground.

As there will be no spring plowing for corn under this rotation, attention can be given to the preparation of the fall plowed ground as soon as the oats seeding is out of the way, and there will be ample time to permit disking or pulverizing several times and the formation of an excellent seed bed and the elimination of the weed factor.

When the clover is clipped and left on the ground there will not be much interference between the clover and cultivation. If, however, the clover is made into hay, and where alfalfa is grown, it will require an extra effort to have cultivation far enough along to be able to take a few days off for haying. By the time the corn is laid by and the large weeds cut out of it following wheat within reasonable time comes the oats harvest, and while the oats are curing out in the shock the wheat may be stacked or thrashed. Following thrashing will come plowing for fall wheat, with a short fallow if possible to help in the work of forming a good seed bed for the wheat. As there is ample time, this is a good opportunity to apply phosphate and limestone. Then follows a time in which clover seed harvest and hilling, phosphate spreading on the stubble, soil filling, corn fodder harvest and other jobs will come without much interference usually with each other. When the growth in the clover stubble has about ceased because of cold weather it is ready for the plow, and as the weather is cool and the ground has likely been softened by fall rains the plowing is not such a desperately hard job. Then comes the crowning harvest of the year—corn husking.

The belief that corn is the money crop—with the accent on the money

—is too deeply seated in the mind of corn belt farmers. There is more money and more profit in good crops of oats and wheat, such as can be grown under good rotation and soil treatment, than there is in poor crops of corn grown without rotation and soil treatment.

## Weeds.

While weeds may serve a good purpose in conserving available plant food at a time when the ground would be otherwise idle, no effort should be spared to fight the pests. Weeds vary in their habits, so that some species become much more noxious than others, but they are all weeds. Those that propagate by means of the underground rootstocks are the most difficult to control, but a general principle can be applied to all, regardless of any special habit. It is this, that if no growth is permitted above ground, the root system must perish. The application of this principle permits of various methods, though in large areas it may be difficult of application. If a patch of

Canada thistles can be deprived of all leaf growth, with a hoe or otherwise, once a week for two years, it will be practically destroyed. One of the best aids in successfully fighting some of the perennials, and many of the annuals, is good underdrainage, as this interferes somewhat with seed germination and growth, and helps in the destruction by cultivation.

Weeds have wonderful powers of reproduction. A good crop of oats will yield about 25 to one; wheat 20 to one; corn may give 1,000 to one; but a single plant of Jimson weed has been known to produce 151,000 to one; button weed, 1,500 to one; wild lettuce 15,000 to one; purslane 1,250,000 to one; pigweed 2,359,000 to one.

## HAD A SPRING SNOW.

A Jacksonville gentleman who visited near Pearl last Saturday, reports that there was a fall of snow in Greene county that day to a depth of 7 inches.

## Most Useful Hog Book Published

## What They Say About Prairie Farmer's Hog Book.

Quotations from letter from C. A. Rowe, Jacksonville, Ills. Morgan county.

"The Prairie Farmer Hog Book is concise, attractive and practical."

You are to be congratulated on getting out such a cash piece of work as PRAIRIE FARMER'S HOG BOOK. I want every man in the office here to have a copy.

Iowa Experiment Station, John M. Evard. I am going to build some of the self-feeders described in PRAIRIE FARMER'S HOG BOOK for use on our country farm. This plan of feeding looks good to me.

W. G. Eckhardt, County Advisor, DeKalb County, Ill. Clifford W. Gregory, Editor of the PRAIRIE FARMER, Chicago, has written a splendid little hand book on hogs that is exactly what it purports to be—"Common sense suggestions that will help any farmer to make more money from his hogs."

The Banker-Farmer.

## Why You Want This Book

1. It is a farmer's book, written especially for the man who is raising hogs for market. The whole book deals with problems that the pork raiser has to meet.

2. It is a new book just off the press, and everything in it is up-to-date. It gives reliable information on such subjects as self-feeders, forage crops, hogging down corn, etc., that are hardly mentioned in older hog books.

3. It is written by the editor of PRAIRIE FARMER, especially for middle west hog raisers. It is a book that is fresh and up-to-date, and written especially to fit Illinois conditions. Any person who sends \$1.00 to PRAIRIE FARMER will receive that paper 3 years and in entitled to one of the Hog Books—128 pages, a flexible cover that won't come off, 30 pages of attractive illustrations. The book will be sent to you and PRAIRIE FARMER to another address if you ask. Or your own subscription will be extended 3 years from the time it is now paid to. If you prefer, either Frank Mann's Soil Book or Ainsworth's Corn Culture will be sent instead.

## USE ORDER BLANK BELOW

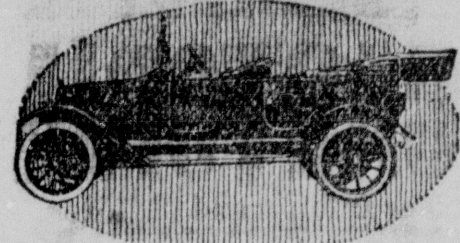

Journal, Jacksonville, Ills.

For the enclosed \$2.00 send me PRAIRIE FARMER for three years, THE JOURNAL three months, and send me postpaid copy of THE HOG BOOK.

Postoffice . . . . .

# Maxwell

New 1915 Model  
\$695  
17 New Features

A man right here in our town bought a low priced car last year. Some of the extras that he bought for it were:

High tension magneto, Shock Absorbers, New carburetor, Anti-rattling device, License brackets, Anti-skid tires, Foot accelerator, Speedometer, Spare tire bracket.

These cost him more than \$196.50.

Now he owns a 1915 Maxwell with all these modern features and a dozen others.

This "Wonder Car" with Electric Self-Steering and Electric Lights only \$55 extra.

## DON'T WASH YOUR HAIR WITH SOAP

When you wash your hair, don't use soap. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is plain mulled coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

## A Talk on Teeth

Every tooth has its own peculiarities. Almost every difficulty requires some special treatment. We study the matter in all its phases. We study each individual tooth for itself. We treat each case after careful study. We want to treat your natural teeth or fit you with artificial ones. Prices reasonable.

## C.W.B.M. FORMS ORGANIZATION TO PROMOTE COUNTY ACTIVITY

Mrs. George C. Peck is Selected Secretary at Meeting Wednesday—Mrs. Porter and Other State Officers Present at Luncheon.

A county organization was formed Wednesday by Morgan county members of the Christian Woman's Board of Missions and Mrs. George C. Peck was elected secretary. Mrs. Lura V. Porter, state president of the C. W. B. M., and other state workers were present at Central Christian church for a 12 o'clock luncheon, after which attention was given to the manner and method of organization and the needs apparent in this particular field. Five of the nine Christian churches of the county have C. W. B. M. locals, Jacksonville, Concord, Woodson, Lynville and Chaplin. Steps will be taken to institute the work in the church remaining and to revive interest in the organizations already formed.

Besides Mrs. Porter there were present at the luncheon, Mrs. Jennie Call, the state secretary; Mrs. Searcy of Carlinville, district secretary, and Miss Gaddis, state superintendent of young people's work. Miss Eleanor Thompson presided at the meeting Wednesday.

## ILLINOIS NEWS NOTES.

**Death of Veteran Engineer**—Ell Burnett, aged 86, retired engineer of the Big Four Railroad, and who ran between Mattoon and St. Louis on that system first in 1863 as fireman, and for thirty years afterward as engineer, is dead at his Mattoon home. He is said to have been the oldest man in the employ of the Big Four at the time of his retirement on pay, six years ago, and was well known in every town on his run, which was practically without accident in all of his forty-six years of service.

**Illinois Manufacturers Will Meet**—A majority of the 1500 members of the Illinois Manufacturers' Association will attend a meeting to be held in Springfield, March 30. It is said, to consider legislation affecting the business of the state. A call for the meeting was issued by John M. Glenn, secretary and E. C. Westman, C. P. Gardner and T. E. O'Brien, the legislative committee of the association.

**Kills Himself Because Unemployed**—Despondent because he could not obtain employment and earn money with which to aid his mother, Harry Logan of Athens, committed suicide by swallowing carbolic acid.

**Woman Violated Local Option Law**—Mrs. Clara Christensen of DeKalb, who was found guilty of violating the local option law and fined \$25.50 and given twenty days in jail, was put in jail Tuesday. Efforts have been made to have sentence suspended, but failed.

**Calhoun County's First Brick Church**—Calhoun county has its first brick church, which is just completed at Hardin, Ill. The building was built by the New St. Norbert's Parish Catholic church at a cost of \$15,000. The materials for its erection were shipped up the Mississippi river from St. Louis on a packet. The first mass Wednesday was in conjunction with the blessing of the bell, which was donated to the church by the Eagle Packet Company of St. Louis. Mrs. Harry Ley, wife of the captain of the packet company, was sponsor. Rev. Father Hanley, C. M., delivered the first sermon in the church, after mass by Rev. Edward Hickey, the pastor assisted by Father Douglass of Kampsville, Ill.

**More Students Stricken**—Owing to the development of five cases of small-pox among the students of the University of Illinois last month, Dean Clark has issued a statement advising all students to be vaccinated.

**Passengers Exposed to Small Pox**—William O'Connell, a student at the University of Illinois, is ill with small-pox at his Springfield home. The State Board of Health has ordered the vaccination of the crew of the train on which he rode and disinfection of the cars, and will endeavor to locate as many as possible of the passengers who were exposed.

**Dunne Sets Good Roads Day**—In a proclamation just issued Gov. Dunne designated Tuesday, April 20 as "Good Roads Day" in Illinois and urged people to work on roads that day. He suggests that in the public schools speakers call attention to the importance and value of good highways.

**\$50,000 Fire in Omaha**—Fire at Omaha twenty miles south of Carmi, early today caused a loss of \$50,000.

**Coeds Earn Big Sum**—One hundred and seventy University of Illinois coeds have earned \$2545 toward their living and school expenses since last fall. House work, caring for children and waiting on table are some of their activities.

## REMEMBER THE MISSIONARY TEA TOMORROW

The ladies of the city are again reminded of the missionary tea at Grace church tomorrow from two to six o'clock for the benefit of Passavant hospital. It will be a come and go affair and will be an enjoyable function for all who attend. The hospital is in need of funds for the carrying on of its work which is heavy and aid at this time will be most welcome.

## Economy Hints

A penny saved is a penny earned.—Benjamin Franklin.

It is certainly time for the home gardener to think of caring for the surplus from the garden.

Wise home growers have planned on having a sufficient supply of choice vegetables during the winter. These vegetables will have to be stored in order that they may be preserved. Onions and squash should be placed where there is sufficient heat and dryness to prevent any possible decay.

The root crops—parsnips, carrots, beets, salsify and turnips—are best buried in soil. A good sandy loam is excellent. Place a layer of soil in the bottom of a barrel or box, then a layer of roots, a layer of soil and so on. If the quantity of root crops is large enough the roots may be stored in a pit outside the house. A good way is to pile the vegetables in a conical form and place straw over them. Soil should be applied to cover this straw and more soil or manure added as the weather becomes colder.

Sometimes a botbed pit is used for storage, particularly if adequate facilities for ventilation are given and if protection from oversupply of water is afforded by covering the tops of the beds with boards and tarred paper. Protection should also be given against excessive cold by applying refuse over the tarred paper.

Cabbages may be stored in the hot bed pit or in the garden by placing a little straw on the ground, removing the cabbages, roots and all from their location and placing them heads downward on this straw. A layer of cabbages four plants wide and of indefinite length, with another layer over it three plants wide, all covered with straw and soil, will cause the cabbages to keep in the best condition, especially if a location is chosen where ample drainage is possible.

The whole aim in the storage of vegetables is to prevent sudden freezing and thawing, to give ventilation enough so that the product may keep well, to give moisture enough to some crops so that shriveling will be done away with and with other crops, squashes and onions in particular, to give heat enough so that they will not suffer from excessive moisture.

## RENOVATING HINT.

How to Use Some Stains For Pine Floors.

How can the ordinary pine floor be made presentable without covering it with a carpet? This is a problem which is perplexing many housewives.

A number of stains and varnishes which have proved satisfactory for such floors have been worked out by students in household management in the home economics department at the college of agriculture, university of Wisconsin.

Before applying the stains the floor should be carefully smoothed with sandpaper or steel wool. If the floor is soft or very old fill the pores of the wood and all cracks with a filler. A good paste for this purpose may be made from whiting or starch mixed with either oil or turpentine. Shellac varnish is often sufficient if the larger cracks are first filled with the paste mixture. The floor should dry for twenty hours and be sandpapered for a second time before the stain is applied.

Here is a good method for giving a pine floor a pleasing finish with a slightly yellow maple color: Apply two coats of a mixture of one-half ounce burnt umber, one quart of raw linseed oil and two and one-half ounces of yellow ochre. Allow the floor to dry well and then wax.

To give a floor a good brown tinge make a stain of one pint boiled linseed oil, one tablespoonful burnt umber, one pint of turpentine, one tablespoonful sienna and two tablespoonfuls chrome yellow. This stain will serve as a filler as well as a finish on a smooth floor with no cracks. Apply two coats and then wax.

For a light finish for a pine floor apply ammonia before the filler to penetrate the wood and darken it slightly. After the filler is dry sandpaper and apply two coats of varnish, rubbing each coat with powdered pumice stone.

## How to Make the Delicious Pinocho For the Kiddies.

This is a delicious candy easily made and wholesome for the children, tasting like maple.

Boil two cupfuls of brown sugar, one-half cupful of milk or cream, one-quarter of a teaspoonful of salt and two lumps of butter the size of a walnut, stirring constantly. Have ready a cupful of ice water. When the sirup begins to darken and thicken try in the ice water. If it will roll into a soft ball under the fingers remove from stove, add one-half teaspoonful of vanilla and a cupful of nut meats which have previously been chopped fine. Walnuts, peanuts or pecans are good. For variety a cupful of cut-up marshmallows or cocoanut may be used.

Beat hard until it begins to thicken on the spoon; then turn into buttered tins. It will "set" almost immediately, when it can be cut into squares. Put into the box for ten minutes. If not crisp it has not been well beaten.

## FOREIGN CORRESPONDENCE.

(By Associated Press).

London.—C. R. W. Nevins, one of the chief disciples of Futurist painting in England, has been invalided home from the front where he went six months ago in charge of a motor ambulance.

"It needs an iron nerve to find poetic inspiration in such scenes of horror as one must view over there," he said on his arrival here. "But the war will be a violent incentive to Futurism, for we believe there is no beauty except in strife and no masterpiece without aggressiveness."

"In the pictures which I have painted in France, I have tried to express the emotions produced by the apparent ugliness and dullness of modern warfare. The Futurist technique is the only possible medium to express the crudeness, violence and brutality of the emotions seen and felt on the present battlefields of Europe."

"All artists should go to the front to strengthen their art by a worship of physical and moral courage and a fearless desire of adventure, risk and daring. Thus they will free themselves quickly of the canker of professors, archaeologists, antiquaries, and beauty-worshippers."

"Modern art needs not beauty or restraint, but vitality. The sooner the exploitation of the old masters and the wastage of millions of money ceases, the sooner will come the opportunity for the artist to make a livelihood. A masterpiece must disappear with its author. Immortality in art is a disgrace which has built up a prison of timidity, imitation and plagiarism."

Petrograd.—The story of an aviator who came back to the Russian lines with an Austrian prisoner strapped to the tail frame of his aeroplane is told in a dispatch from the front in Poland.

"The airman, Terentie Paschaloff, ascended from the aviation headquarters in the rear of General Ivanoff's army in his 150 horse power machine, accompanied by his mechanic. The machine carried a small gun and a number of bombs."

Owing to motor trouble, Paschaloff had to descend two miles behind the Austrian lines. While the mechanic was repairing the motor, six Austrians approached. Paschaloff turned his one powder on them and fired one shrapnel shell, which exploded accurately and felled five men. The sixth surrendered.

Then came the problem—what would he do with his prisoner? Paschaloff decided to abandon his stock of bombs, and tie his prisoner to the tail-frame of his machine. Thus burdened the aeroplane rose and flew over the Austrian lines amid a storm of bullets, regaining the Russian lines without damage.

London.—Two among the British prisoners of war returned by Germany as totally disabled have already recovered from their afflictions. A blind man sees, and a dumb man talks.

Lance Corporal Fowkes of the 18th Hussars was shot in the head at Mons and was pronounced permanently blind by the Germans. But he has regained his sight as the result of a special X-ray treatment.

The news of Corporal Fowkes' recovery had scarcely started the gossip going in Queen Alexandra Hospital when the patients were startled, or shocked by the sharp exclamation "Oh Hell." The words came from a patient who had been struck dumb by concussion when a shell burst near. He had unwittingly put his hand on a hot water pipe, and the shocks of the burn restored him to speech.

W. B. Rexroat and Harden Clark of Jacksonville shipped two car loads of cattle and hogs to Chicago from here Tuesday.

Willard Young shipped two car loads of hogs to Peoria Tuesday.

E. L. Clark has built an addition to his farm residence, consisting of a large kitchen, china closet, storage room and porch. He says next will be a garage and then we will "go some."

Mrs. Earl Rexroat and little son Elden Earl arrived home Sunday from a two weeks visit with friends and relatives at Marshall, Mo.

Frank Boltman who has been living on W. B. Rexroat's farm has moved his family to Jacksonville. Services were conducted at the Literberry Christian church Sunday morning and evening by the Rev. Mr. Cantrell who is now the regularly appointed pastor.

Ray Maul has purchased a motorcycle.

Harold Gaines has gone to Chicago on a business trip.

Earl Rexroat is confined to his bed with the grip.

A surprise party was given Mr. and Mrs. John Becker Tuesday evening. A great many friends and neighbors came, bringing baskets of eatables. The crowd was splendidly entertained by the estimable hostess—Mrs. Becker, and the evening was enjoyed by all.

Jokes are something we all enjoy and the young men of this neighborhood are up to date in playing them on the new comers.

Considerable fun was enjoyed by a bunch of young fellows here last week in the initiation of a new comer. The joke was played so realistically that the participants almost believed it real themselves.

Literberry is a great little town at this time of the year. The farmers have mostly quit loafing and bought alarm clocks and the town doctors have become alarmed—because they are alone. The women folks are watching the hens closely to see if they are getting broody, planning to clean house, and making over their narrow skirts into the change of fashion. In fact every body is wearing a garb of spring time.

Central

Union

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after-effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes gives havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "dull" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

## FALLING HAIR OR ITCHING SCALP

Surely Cease When You Use Parisian Sage—Makes Your Hair Soft and Fluffy.

Now that Parisian Sage—a scientific preparation that supplies every hair and scalp need—can be had at any drug counter, it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly your hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Every trace of dandruff is removed with one application, the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair cease—your hair becomes soft, fluffy, abundant and radiant with life and beauty.

Parisian Sage is surely one of the most invigorating and refreshing hair tonics known. It is easily used at home—not expensive, and even one application proves its goodness.—Advertisement.

## BECKER'S ATTORNEYS TO SEEK A THIRD TRIAL

Argument Based on Conflicting Statements of Witnesses—Charge of Supreme Court Justice Terner Unfair.

**The Becker Case.**  
June 16, 1912—Herman Rosenthal was shot to death in front of Hotel Metropole, New York.

Oct. 24, 1912—Charles Becker convicted of murder.

Feb. 14, 1914—Court of Appeals reversed the verdict and granted a new trial.

May 22, 1914—Becker convicted for second time of murder.

April 13, 1914—Lettie Louis, Gyp the Blood, Wilkey Lewis and Dago Frank electrocuted at Sing Sing.

New York, March 24.—The lawyers for Charles Becker, the former police lieutenant, twice convicted as the principal in the murder by gunmen of Herman Rosenthal, a New York gambler, will today go before the court of appeals in a final effort to secure a third trial for their client. The argument is based on the many conflicting statements made by the witnesses whose testimony convicted Becker of complicity with the gangsters in the murder of Rosenthal, and on the claim that public clamor and newspaper zeal influenced the decision.

The brief in which Becker's lawyers enumerate their contentions is the longest ever submitted in a criminal case in New York county. It contains 750 printed pages. Some of the claims made by the lawyers, on which they hope for a new trial, are as follows:

That the charge of supreme court Justice Seabury, who presided at the second Becker trial, was "unfair, erroneous and highly prejudicial."

That Becker's guilt was not established beyond a reasonable doubt. That his conviction "was brought about by newspaper clamor, the zeal of the prosecutor and natural desire of the actual murderers for self-protection."

That the testimony of Jack Rose, one of the chief witnesses for the state, "reeked with duplicity and falsity."

That Becker's lawyers were not permitted to introduce at the second trial the written confession of Frank Crozier, known as "Dago Frank," one of the four gunmen electrocuted on April 3 of last year as one of the gunmen who shot Rosenthal. This confession, the lawyers claim, would prove clearly that at least one of the gunmen, "Dago Frank," had never heard that Becker was behind the murder.

That the testimony of several other witnesses, including Charles B. Plitt, Jr., Becker's former stool pigeon, is also questionable.

That the testimony of Mrs. Lillian Rosenberg widow of "Lettie Louis," another of the executed gunmen, and who testified for the state at Becker's second trial, was "highly incompetent and improbable, worthless so far as it has any value in connection with the defendant, Becker, with the gunmen or the commission of the crime."

That the second Becker trial was staged in an atmosphere designedly hostile to the defendant, an atmosphere created by the clamor of New York newspapers.

It is said that the two alleged confessions of "Dago Frank" and Jas. Marshall, a colored witness, will play an important part in the Becker appeal to be heard today. Dago Frank, the gunman, confessed to Warden Clancy two hours before his execution at Sing Sing in April of last year, as follows:

"I did not do the shooting. The men who fired the shots were Gyp, Louie and Vallon. I was five miles away at the time. So far as I know, Becker had nothing to do with the case. It was a gamblers' fight. I told some lies on the stand to prove an alibi for the rest of the boys. I was in Bridge Webster's when the arrangements were made. I did not know what they were, but I knew something was coming off."

Marshall, the negro witness, whose testimony was one of the strongest links in the conviction of Becker, made an affidavit in Philadelphia last month, setting forth that his words on the stand were false, and indicating in writing that the New York district attorney's office influenced him to testify as the prosecution wished, under threat of arrest and imprisonment. On the strength of this alleged confession, Becker's lawyers sought a new trial last month, but Justice Bartow S. Weeks of the supreme court denied the plea, on the ground that the affidavit did not constitute grounds for re-opening of the case.

Becker, who is in Sing Sing under sentence of death for the murder of Herman Rosenthal, is hopeful of a third trial. His friends are exerting every energy in his behalf.

### A GRAND OLD OAK

In the horse pasture on the farm of what was known as the home-stand of the late Capt. J. N. Brown, now owned and occupied by his son, the well known fine stock raiser of Island Grove, is a burr oak tree which is probably the largest of its species in this section. The tree measures at a height of six feet from the ground, a fraction over 18 feet in circumference and is a little over 6 feet in diameter. It is tall and stately except where a portion was injured by a lightning stroke; this has been repaired however.

Miss Althea Hall, of Alexander expects to leave today for Pana, Ill. for a visit with Miss Alta Kelb.

## ONCE A MIGHTY CITY.

Ypres, in Belgium, Was Famous When Berlin Was a Hamlet.

The little Belgian town of Ypres, in Belgium, in the heyday of its greatness and prosperity ranked as large in the civilized world as Philadelphia, Chicago, Berlin and other big cities do today. Indeed it was a splendid city when Berlin was a mere hamlet of half civilized Slavs.

It was in the days of the commercial greatness of Venice that Ypres attained the summit of its prosperity. It was an important distributing center for the traffic which came up through the Adriatic by boat, was carried overland and then scattered from Belgium to England, France, Holland, Germany and other countries. It also was a great manufacturing center, and in the fourteenth century its population exceeded 200,000, making it one of the largest cities in Europe. Ghent and Bruges, its near neighbors, were no less prosperous. With the changing of the trade routes of Europe the wealth and population of Ypres disappeared until it has now less than 20,000 people.

When one reads of the rise and decline of these communities which flourished long before America was discovered it is interesting to speculate whether the same fate will overtake our own cities. Who can tell? To us their foundation seems substantial, but doubtless the worthy burghers of Ypres thought the same of their beloved city 600 years ago—Philadelphia Record.

## NOISELESS NORWAY.

A Country of Quiet Voices, Gentle Manners and Placidity.

The population of Norway is nearly 2,500,000, but if the entire population met in a given area I venture to say that their coming and their going and their meeting would not make as much noise as one may hear every five minutes on dozens of street crossings either in New York or in Chicago.

Norway is the country of quiet voices, gentle manners and no noise. The steamers dock almost without a sound and depart as silently. At Christian sand, where we touched first on Scandinavian soil, people got on and off the steamer, farewells were waved, the crowd on the dock moved about deliberately, but no voice was raised, there was no shouting, no physical unrest or pressing itself in squinting bodies or twisted features; they were almost as calm as the stars above them.

All over Sweden and Norway one is attracted by the smooth skins, unwrinkled cheeks and unmarred brows of both the men and the women. They have placid faces, as of men and women who have not yet been in contact with our disease of striving to live all of life in a day. The trains slide away from the stations at the sound of a scarcely audible whistle, and there are no bells or shouted warnings; the crowds in the streets or elsewhere seem to push their voices out of the range of hearing of ears accustomed to the catarrhal rumble of London, the strident gabble of New York or the sibilant cackle of Paris—The Late Price Column in Scribner's.

**Keep a Firm Hand on the Tiller.**  
The sails of boats are our emotions, the rudders are our characters. Our sails are breathed upon by gentle zephyrs of affection and inclination, of hope and love and of hate. They are torn by sudden gusts of passion. We are blown hither and yon by conflict of quarrelsome winds, driven from our course by angry squalls. The only force by means of which we can counteract the effect of the winds and hold our course is the rudder of character.

We know that we shall be blown upon all our lives by various influences, good and bad, that our emotions—those white sails that respond to every breeze—will be played upon by every human appeal and desire. What will become of the craft that has not a firm hand on the tiller?—Youth's Companion.

### Relics of Old Persia.

Shuster, the old capital of Persia, is one of Iran's wonder cities. In the dawn of Persian civilization it took a leading part. On the bank of the only navigable river the country can boast, the city gets its name from the famous ruler, Shapur, who built great irrigating dams and a noble bridge across the Kurum, now wrongly credited to the Emperor Valerian. Sixteen hundred years have left the great bridge, a quarter of a mile in length, with yawning gaps, but the water of the river runs today through the channels and tunnels made to fertilize a land that had not yet been overrun by the Arab barbarians who destroyed the culture of Persia—London Mail.

**Barley Water.**  
Barley water is a safe and cooling drink and is nutritious as well. Put into a pitcher one large tablespoonful of well washed pearl barley, pour over it two quarts of boiling water, cover and let stand until cold. Drain off the liquid, add one-half cupful of sugar and a little nutmeg. If liked the juice of a lemon is a pleasant addition.

**Knew the Exact Amount.**  
De Figue—If I could get some one to invest \$1,000 in that scheme of mine I could make some money. Dawson—How much could you make? De Figue—Why, \$1,000.—Baltimore Sun.

**Perhaps.**  
"Sir, I came down from a long line of ancestors."  
"Indeed? Were many of them hanging on?"—Exchange.

Try to do your duty and you at once know what is in you.—Goethe.

## MAY LOSE MILLIONS IN A MINING VENTURE.

German Count Who Invested in Canadian Lands Said to Have Had Kaiser For Partner.

Seattle, Wash., Mar. 24.—Five million dollars invested in Canadian coal lands by Count Alvo Alvensleben of Seattle is likely to be irretrievably lost because the count was unfortunate enough to have interested with him in his big mining enterprise no less a personage than the Emperor of Germany. The count too is German. Since the outbreak of the war, he has confined his business operations to the American side of the line. He is the dominant figure in the Issaquah and Superior coal mines of this state.

According to advices from Washington, it is known to the British authorities that part of the money he invested in the Canadian mines was the Kaiser's, and it is believed that the title may be canceled and the property confiscated by the Canadian government. The only question at issue is whether this money belonged personally to the Kaiser or whether he caused it to be invested on behalf of his empire. In the latter event, the property, which has been extensively improved and developed, will revert immediately to the Dominion government.

Much of the property involved, which is situated in the Groundhog anthracite district and at the head fork of the Stikine river, already has been transferred to German-American citizens and the Canadian government is investigating the validity of these transfers.

The fact that the property was or is owned by the Kaiser was elicited at Washington in connection with the story of the retirement of Count Von Bernstorff, the German ambassador. It also has developed, it is said, that the mission of Dr. Dernberg, the former colonial minister of Germany, who came to this country ostensibly to build up friendly relations between the United States and Germany, was in reality to act as the Kaiser's financial representative in the United States and Canada. It is known that the Kaiser is heavily interested in the New Hamburg-American line and in the loans negotiated in Germany by the City of New York.

The Canadian properties in which the Kaiser is interested were acquired by Count Alvensleben some two years ago. A railroad had been projected to the Groundhog coal fields, and the hard coal was to have been placed on the American and Canadian markets; but, for some reason, nothing was done toward completing the road after the surveys were made and the property had been acquired by the Germans.

## RUB RHEUMATIC PAIN FROM ACHING JOINTS

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacob's Oil."

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops neuralgia, lumbago, backache and sciatica.

Linger up! Get a small trial bottle of old time, honest "St. Jacob's Oil" from any drug store, and in a moment, you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Advertise, ment.

## AUTOMOBILE NOTES.

T. S. Thornley of the vicinity of Arenville came to the city yesterday in his Midland car.

George Hardwick of the vicinity of Merritt drove to the city yesterday in his Oakland car.

Walter Robertson and mother, Mrs. Andrew Harris, rode to the city yesterday from the vicinity of Berea in Mrs. Robertson's Jeffrey car.

Howard Joy of Joy Prairie came to the city yesterday in a fine, brand new Studebaker car.

Mr. and Mrs. L. L. Clark accompanied by C. E. Corrington, made a trip to the city from New Berlin yesterday in their Cole car. Mrs. Clark was formerly Miss Coral Furr and met many friends glad to see her.

Harry Rice from the region of Arnold was an arrival in the city yesterday in his Mitchell runabout. Dr. Taylor of Ashland made an automobile trip to the city yesterday.

J. F. Brockhouse and daughter were visitors in the city yesterday, coming from Merceda in an automobile.

George Deitrich of the vicinity of Concord rode to the city yesterday with his family in his Cadillac car. John Votsmeier of Franklin made a trip to the city on business yesterday in his Mitchell car.

Robert Coates of Lynville district was a city caller yesterday coming in his Mitchell car.

## COURT NEWS

### REAL ESTATE TRANSFERS

J. L. McGinnis to N. H. Richards, bond for deed, part lot 42, etc., Wolcott's addition to Jacksonville. \$1200.

An affidavit was placed on record Wednesday signed by L. J. C. Lamar, recorder of the general government land office, accompanied by a literal exemplification of a land patent issued to Jacob Strawn in 1828.

The original certificate bore the number of 1960 and set forth that the government acknowledged full payment in accordance with the land laws from Jacob Strawn of Jackson County, Ohio, for the west half of the southeast quarter of 20-15-10, containing 80 acres. The original document was signed by John Quincy Adams, president of the United States, April 20, 1828. It was placed on record presumably to straighten out some title error in land belonging to the Strawn estate.

### SQUIRE DYER'S COURT.

Miss Fannie Brannom, was arrested by deputy sheriff Norris Wednesday on a warrant sworn out by Mrs. Bees Norton on a charge of disturbing the peace. In that she used language to the complainant calculated to aggravate her and destroy her pleasure. She pleaded guilty and his honor assessed a fine of \$5 and costs.

After leaving the office of the magistrate the woman became abusive to Mrs. Norton, threatening to kill her, and for this she was re-arrested and returned to the presence of the squire, where she was placed under bond to keep peace for six months.

John Delaney and Bart Dougherty were arrested by members of the city police department and taken before Squire Dyer charged with being common drunkards. They were sentenced to the county jail as vagrants for 15 days each.

## Cooks Fast, Slow or "Fireless"

You can cook three ways with this NEW PERFECTION with the insulated oven. By adjusting the flame you get the quickest kind of quick heat for fast baking, or the slow steady kind you need for baking bread and roasting. Seal the oven and turn out the flame and you have a fireless cook stove—the easiest managed, most convenient fireless that was ever invented.

The insulation keeps the heat in the oven and out of the kitchen. This saves fuel all the year 'round and is a blessing in the summer. A spacious cabinet top warms up the dishes, there is ample room behind the burners for keeping food hot. Burns oil—clean, convenient, economical. Why carry coal and wood in and dirty ashes out when with a NEW PERFECTION all you need is matches. Price amazingly low—this splendid range and fireless cooker combined costs very little more than a good fireless and less than any coal or wood range that would begin to do the same work.

See this NEW PERFECTION Wick Blue Flame Cook Stove at your dealer's. He has it in two sizes, as well as a big line of other NEW PERFECTIONS. Look for the triangle trademark.

7¢ per cook book free for five 2-cent stamps to pay for mailing.

### FINE FOR RHEUMATISM!

Musterole Loosens up Those Stiff Joints—Drives Out Pain

You'll know why thousands use MUSTEROLE once you experience the glad relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

MUSTEROLE is recommended by doctors and nurses. Millions of jars are used annually for Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

### BEGIN TO WORK FOR BIRTH AND DEATH REGISTRATION LAW

Secretary of State Board of Health Issues Special Bulletin Calling Attention to Need for Measure.

Springfield, Ill., March 24.—The secretary of the state board of health, Dr. St. Clair Drake, in a special bulletin issued today, said that in Illinois every year upwards of 40,000 children are born, who because of lack of records are destined to grow into manhood and womanhood without any legal proof of their legitimacy and without any official record by which to establish their identity, their age or their right to inheritance. He added that some 30,000 citizens of this state die each year without any record of this fact being made a subject of official entry and without proper records for the protection of the interests of survivors. The United States government has dubbed Illinois a "non-registration state," a characterization which causes health authorities throughout the country to refer to Illinois as "the benighted commonwealth of the North."

Illinois Should Fall in Line. "All progressive states of the Union, excepting Illinois, have long since taken action which has removed from them the stigma 'non-registration state' and it is up to Illinois to fall in line with these states immediately," says the bulletin.

"To this end, the State Board of Health, all the active health and school officials of the state, all of the numerous woman's organizations, and all of the influential state, county and city medical societies are co-operating in an effort to have an efficient birth and death registration law enacted at this session of the legislature. A good bill, thoroughly fair in its requirements, imposing no hardship on any citizen, readily workable and pronounced by experts as promising of the desired results, has been introduced in the state senate by Senator Cornwall.

Conducts Educational Propaganda. "In furtherance of the effort to encourage the recording of births in the state, the State Board of Health is conducting an educational propaganda, an effective feature of which is the employment of moving pictures. To impress upon the public mind the importance and necessity of recording a child's birth, the secretary of the board has written and produced a motion picture story in which is set forth the embarrassments and misfortunes which may beset any individual whose birth has not been recorded. This film is now going the rounds of the counties of the state, and is being shown under the auspices of the respective local county medical societies in practically every town having a motion picture theatre.

"The title of this film story is 'Tony's Birth Certificate' or 'Why Births Should be Recorded.' ASSOCIATION EXPERT HERE F. M. Deenake, field secretary of the state executive committee, Illinois Young Men's Christian association, is in the city for a few days in the interests of local association work and conditions. Plans for the continued maintenance and betterment of the Jacksonville Y. M. C. A. are under consideration, and a directors' meeting will be called soon in which matters of future policy, the calling of a secretary, etc., will be taken up. Secretary J. R. Watt, as before announced, has decided to enter other business and with his son will take possession soon of the Crispette shop, East State street. For the rest of this week at least, he will be at the 'Y.'

LICENSED TO MARRY. Royal Hopper, Jacksonville; Beulah Cummings, Jacksonville.

FROM GIRLHOOD TO OLD AGE WOMEN ARE HELPED.

At the first symptoms of any derangement of the feminine organism at any period of life the one safe, really helpful remedy is Dr. Pierce's Favorite Prescription.

Tens of thousands of women have taken it with unflinching success for every conceivable ailment and disease of a womanly nature. It is a woman's temperance medicine and its ingredients are published on wrapper.

Dr. Pierce's Favorite Prescription is a true friend to women in time of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal condition, bearing down sensation, mental depression, dizziness, fainting spells, lassitude and exhaustion women should never fail to take this tried and true women's medicine.

Prepared from nature's roots and herbs, it contains no alcohol nor narcotics, nor any harmful ingredient. Medicine dealers everywhere have it on hand in either tablet or liquid form at all times. If you want a specialist in women's diseases to diagnose your case absolutely free of charge, write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y. today. 136-page book on women's diseases sent free.—Adv.

Dr. Pierce's Pleasant Pellets are the original little Liver Pills. These tiny, sugar-coated, anti-bilious granules—the smallest and the easiest to take. One little Pellet for a laxative—three for a cathartic.

Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels are prevented and relieved.

Put up in sealed vials—a perfect vest-pocket remedy, always convenient, fresh and reliable.—Adv.

CAPTAIN LUKE DIES. Pontiac, Ill., March 24.—Captain Moses H. Luke, well known throughout the country as a penologist and deputy warden at Joliet and more recently assistant superintendent at the state reformatory here, died last night in Cincinnati, according to word received here today.

Henry Slack of Franklin precinct journeyed to the city yesterday.

### VICE-PRESIDENT SPEAKS AT PANAMA EXPOSITION

LAUDS MEN WHO MADE FAIR POSSIBLE.

Dedicates Exposition in Glorification of the Completion of the Isthmian Canal—Characterizes Fair as the "Crystallization of the Dreams and Thoughts of Genius and Talent."

San Francisco, March 24.—Characterizing the Panama-Pacific Exposition as the "crystallization of the dreams and thoughts of genius and talent," Vice President Marshall today spoke at the exposition, lauding the state of California and the men who made the exposition possible, and in the name of the president of the United States dedicated the exposition in glorification of the completion of the isthmian canal.

Wilson "Your Greatest Peacemaker"

He said in part: "I crave your sympathy and your charity while for a few brief moments I stand here commissioned to take, not to fill, the place of the president of the United States. In justice to the day Woodrow Wilson should be here. The office and the man would each fittingly grace this occasion. But duty said to him that justice to all the people made him stay in Washington. You hope for continued peace. Do not forget that he is your greatest peacemaker. May the truth that he seeks your good rather than his own or your pleasure, lighten the disappointments of this hour. Before the sunset bell shall proclaim the close of this marvel of the twentieth century, the president of the United States hopes to meet you face to face.

"California is a state of mystery, of seeming madness and method, a state replete with art, science, literature, law, order and material prosperity of marvelous accomplishment. What others took to be the mutterings of a mighty man in sleep she has made the all-compelling language of her people. This exposition had to be to justify in the mind of man the potency of dreams and visions over mere material things. It is in consonance with the record of this people. Sometime in the hurrying rush of restless men it had to be, but it came sooner than it otherwise would have come, because someone dreamed that here in this sun-kissed climate there lay the seven cities of Cibola.

California Product of a Dream.

"Surely he could not be charged with being merely poetic in mind who on this occasion boldly declares that California is the product of a dream and that this exposition is the composite photograph of dreamers. The seven cities of Cibola have become seventy and seven cities of culture, wealth and character. The dream of the Anian strait has become a reality, south of Mexico it is true, but nevertheless a reality called the Panama Canal.

"I am sure I express the thoughts of the president and the hope of the American people when I say that our Canal was built not alone for glory or great gain, but with a sincere desire to make the whole world kin. There are two gospels now instead of one; the gospel of good will has been supplemented with the gospel of personal contact. The gospel of good will continues to be 'supreme' but nothing will help it preach so loudly as these human agencies which eliminate distance, blend languages and give us sight as well as knowledge each of the other.

"I am quite sure that I am but one of a countless throng in this public who regret that this altruistic work has a real or seeming defect in the charge of an injustice done a sister people to the south. Let us not be too much dismayed this day by reason of that fact. The American people are wise and they know he is not wise who is not just. I look with confidence for the early arrival of that good hour when what ever wrong may have been done shall be righted and when there will be left no drop of bitter water to flow in that channel which unites the seas.

Exist for Humanity's Sake. "From the first to the present president of the United States, whenever thought has been voiced upon the subject, that thought has been that we exist for humanity's sake as much as for our own, that we crave 'friendly relations with all people and extending alliances with none.' While half the world is in a state of indescribable anarchy, seeking to build monuments out of clay kneaded in a brother's blood; of sad eyed and sober the goddess of our institutions seeks to hold out to a warring world the olive branch of peace.

"Obviously I am here in the name of the president of the United States to dedicate this exposition in glorification of the completion of the canal. Really that waterway from its beginning was dedicated to the idea and the ideals of the republic.

"Here men of every age and every clime behold the noonday of the world's accomplishment, the crystallization of the dreams and thoughts of genius and of talent. May we not hope that here a thought-lawn will be born that shall not cease to broaden until at its meridian light, all men around the world are one."

HOLD SHOOT TODAY.

The Nichols Park Gun club will hold a shoot at the park this afternoon at 1:30 o'clock. This will be the last local event before the Illinois Trapshooters' league shoot next week in Springfield.

W. C. Cook of the firm of the Cook Bros., Dental Supply company of St. Louis was calling on the dentists in the city Wednesday.

Good Judges of

### Leather Goods

Will not overlook

### RAPP BROS

on East Morgan Street. Our new line of suit cases, traveling bags, purses, pocket books are well worth your inspection.

## Loans

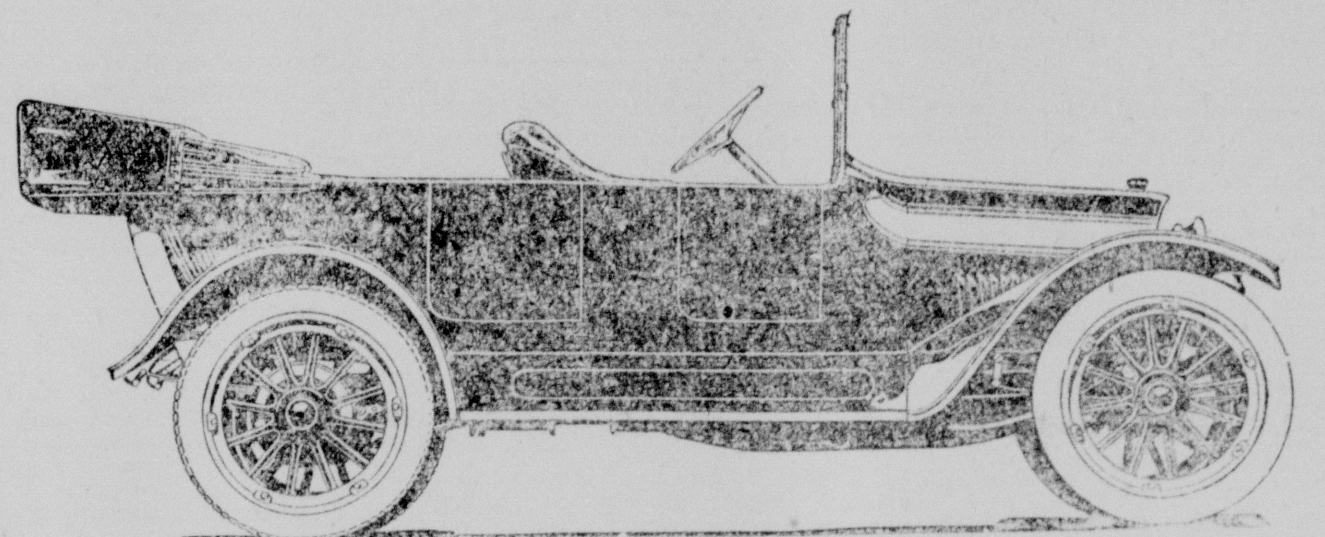

If you have any money to put out at interest, call and let us show you a list of good Morgan county farm and city Real Estate loans. No expense to lender. M. C. HOOK & CO., Ayers Bank Bldg.

### WE MAKE AWNINGS

This is the right time of year to plan for that new awning. You need it most through the spring and summer months. Satisfaction with Material and Workmanship Guaranteed. Illinois Phone 265 C. B. MASSEY 231 West Court St.

## Mr. Automobile Buyer

When you buy an automobile you expect it to look good, run good and stay good a long time, don't you?

It must have plenty of power, be economical in use of oil and gasoline and be easy riding. You will expect the man that sells it to you to give you all the assistance he can in learning to operate and take care of your machine, thereby avoiding accidents that cause expense and trouble to beginners who have not had experience.

### Does the REO Fill the Bill? Do We Do Our Part?

We refer you to REO owners who have purchased cars from us. This is our sixth year selling REOs in Morgan county and we will be pleased to give you a list of our customers. The four cylinder sells for \$1,075 and the Six at \$1,410, F. O. B. Jacksonville. Watch this space for announcement of arrival of the BRISCOE, a French car, at an American price.

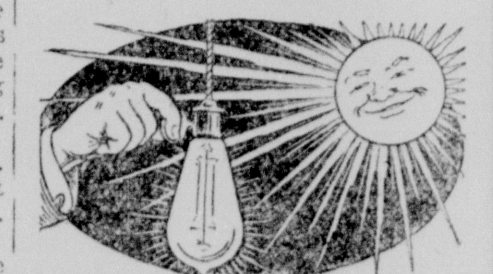

## STEINBERG-SKINNER CO.

214-216 West Morgan St.

### Blood Sufferers

Want to Know

The Light is Turned on to a Subject of Darkness.

The mere fact that S. S. S., the famous blood purifier, drives out disease is a world's story, a topic of conversation wherever men get together.

They wonder why, simply because most remedies are mystified and put before them as "discoveries." The facts are that we pay too much attention to possibilities and not enough to real, homogenous accomplishment. S. S. S. is a remedy of our fathers. It has a history that is written deeply in men's minds because it has done the work driven out deep seated disease, relieved hope, put the O. K. on appearance and clamped down tight any effort of germ to get the upper hand. Any sore spot on the skin is an immediate demand for S. S. S. since the first principle of the famous remedy is to strike out for place of trouble. This is a physiological fact and S. S. S. is true to the workings of our body.

Get a bottle of S. S. S. today at any druggist and begin blood health. It will master any blood disease and do it in a way to emphasize its influence. And if you would like definite advice write The Swift Specific Co., 50 Swift Bldg., Alhambra, Cal. Their medical department is where most people first seek advice that is them on the straight road.

A Thing of Beauty Is a Joy Forever, So Is a Clean, Spick and Span

### SAFE DEPOSIT BOXES

#### \$3.00 PER YEAR

Less than One Cent a Day.

There are hundreds of people in this vicinity who have become accustomed to using a tin box in which to keep their valuables, who by using one of our SAFE DEPOSIT BOXES will find they are safer, strictly private and more satisfactory in every way. It requires two keys to unlock the box. The customer has one and the bank the other, which is the master key. If you should lose your key, and some one else should find it, it would do them no good, because it would require the master key, which we hold before the box could be opened.

There is no better or stronger vault in the United States, and the rate we pay on burglary insurance, which we carry, is the lowest in the country. Come in and let our vault clerk, Mr. Ewen I. Whitlock, explain.

### ENJOY DANCE AT INN.

Forty young people, for the most part students of the Jacksonville high school, enjoyed a dance Tuesday evening at the Peacock Inn. The hosts were Alfred Cox and Raymond Spears.

### A TEXAS WONDER

THE Texas Wonder cures kidney and bladder troubles, disordered bowels, catarrhs, weak and lame backs, rheumatism and all irregularities of the urinary and bladder tracts, men and women. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to effect a cure. Send for testimonials from this and other States, Dr. E. W. Hall, 256 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

## Garden Seeds

We sell the kind that will surely grow.

### COVERLY'S

JACKSONVILLE, FL.

### BUILDING PART OF ORIGINAL CAPPS HOME ON NORTH CHURCH ST.

Remodeling of Residence Recently Purchased by I. M. Bunce on North Fayette Street Recalls Bit of History.

The item in Wednesday's Journal under heading of "Built Substantially" is of more than ordinary interest to some of our older residents. The building recently purchased by I. M. Bunce on North Fayette street was a part of the original Capps home on North church street and is over seventy-five years old, having been built about 1839 by Joseph Capps Sr., the founder of the Capps family in this city. The home as it originally stood, was substantial and for those days a handsome structure, and therein all the children of that large family, excepting Stephen H. Capps, who was born in Kentucky were born and reared. The whole of that block which was surrounded by a tall orange hedge, was the home yard. In the extreme north portion, the first mill was built, taking in what is now the city elevator place. The west half of the grounds, fronting on North Church street was much like a grove, Mr. Capps having planted many fruit and shade trees, a few of which are still standing, among them, notably two old hemlocks.

Feb. 13, 1862, house was partially destroyed by fire, but the old part, consisting of living room, boy's study, dining room and kitchen, with two long porches and a large front portico, remained almost intact. To make way for the new house, now the home of Miss Emma Capps and Mrs. Martha Capps Oliver, the old part was removed to North Fayette street.

There are many pleasant recollections associated with the old study room, when it was still a part of the first Capps home. It was here that S. R. Capps, when a student of seventeen wrote his (honorary) graduation oration. This study, too, was a common and favorite center where many of his college mates were accustomed to repair for mutual study or a good time. Edward A. Tanner, then a student of 17 or 18, afterwards president of Illinois college, W. T. Reid, afterwards president of California university, McLaughlin, father of Mrs. Carl Black, Gibbs, English, Kirby, Wood all of whom later proved their fitness for a "man's job" in the world, were almost daily visitors. It was here, too, that William E. Capps, the gifted second brother wrote many of the brilliant essays and college skits, which flowed so freely from his pen, while the two little brothers Joseph L. and Charles C. worked on their first lesson in "ciphering and goggerfy."

It was from this study, too, that one Sunday morning, the fire started which strangely enough touched that room but lightly, while demolishing other parts of the home. J. L. Capps, a little boy with a big lip, ran from that room to the church, crying as he ran down the aisle: "the house 'th' on fire," and the congregation, naturally supposing that he meant the church, began a stampede, while the minister from his pulpit exhorted the people against a panic, although, as he afterward acknowledged, he felt the flames curling up from beneath the pulpit and realized his own heroism in remaining at his post. Such are a few of the memories of the Boy's Study room in the old Capps home.

Smoke Victor Cigar, good quality mixed with Havana.

### RETURNS FROM OKLAHOMA.

Arthur C. Templin returned yesterday from a trip to Oklahoma and other southern points after an absence from Jacksonville of about six weeks. He made a brief stay in Kansas City on his return. Oklahoma crop conditions promise well, although business at Tulsa, where Mr. Templin spent most of the time, is somewhat slack by reason of a slump in the oil industry.

### I. C. Debate on Labor Unions.

### FUNERAL NOTICE

The funeral of Mrs. Ellen Jackson will take place Thursday morning at 10 o'clock from the M. E. church in Franklin, in charge of Rev. J. W. Kettle and Rev. E. S. Vorbeck.

### LAWN! LAWN! SEED!

The old English kind, put up by Barwell, established Leicester, Eng., in 1800. Sold by J. H. Cain & Sons. (Ask for booklet.)

### FIND NO TRACE OF ZEPPELINS.

Paris, Mar. 25.—(1:35 a. m.)—Indefinite reports of another impending Zeppelin raid on this city were again received last night but a general warning was not given to extinguish all lights as there was no reliable information on which to base an alarm. Aeroplanes reconnoitered for two hours in the territory in the vicinity of Paris but found no trace of a German aerial squadron.

### TO USE BREAD TICKETS

IN LOWER AUSTRIA—London, Mar. 25.—(3:50 a. m.)—The Amsterdam correspondent of Reuters' Telegram company states that a despatch from Vienna says the use of bread tickets for Vienna and lower Austria will be commenced on April 11th.

### MINE SWEEPERS AT

WORK IN DARDANELLES—London, Mar. 24.—(2:50 a. m.)—The Tenedos correspondent of the Times in a despatch dated Tuesday says: "Mine sweepers are again at work in the Dardanelles but the wind is still too high for other naval operations."

### SOCIAL EVENTS.

#### Agreeably Surprised

On 35th Birthday. Mrs. G. W. Eastin of 439 Webster avenue was very agreeably surprised Tuesday evening by about fifteen of her friends calling on her in a body loaded with cake and presents and reminding her that the occasion was her 35th birthday.

Among those present were Misses Dixie Brown, Sophia Kohl, Mae Carroll, Jennie Green, Mrs. Daisy Huff, Mrs. Hannah Bergland and Messrs. Elbert C. Brasel Ray Miller, R. L. Huff, Alfred Anderson, Earl French and Ben Carter.

After spending a very pleasant evening in amusing games, interspersed with songs and music, refreshments were served and the party dispersed at low twelve wishing Mrs. Eastin many happy returns of the day.

#### Mrs. McNamara is Hostess for Club.

Mrs. A. McNamara, 549 Allen avenue, entertained the members of the M. B. O. O. club yesterday afternoon at the regular bi-weekly meeting. In the contests prizes were won by Mrs. M. Miksell and Mrs. Louis Magill. A feature of the afternoon was an excellent paper by Mrs. Phillip Branner. Delicious refreshments were served in the course of the social hour.

#### Unity Workers Meet

With Mrs. J. Steinmetz. The Unity Workers of the Presbyterian church of Woodson met Wednesday afternoon with Mrs. J. Steinmetz, there being a good attendance of members. The devotions were led by Mrs. W. G. Russell, which was followed by a business session. There was a vocal duet by Mrs. W. G. Russell and Mrs. J. W. Heagland, and Mrs. J. Steinmetz gave a reading. A social hour followed and light refreshments were served.

#### ARREST MAIL CLERK CHARGED

WITH THE THEFT OF \$25,000

Mystery in Flood of Money Which Swept Over Leavenworth, Kan., a Year Ago is Declared Solved by Postal Authorities.

Leavenworth, Kan., March 24.—A mystery in the flood of money that a year ago swept over a large section of this city, enriching many people who gathered ten and twenty dollar gold certificates from fence corners, bushes, weed patches and branches of trees was declared solved today by postal authorities who announced the arrest in Kansas City, Kan., of Charles Oldfield, a mail clerk. Oldfield is charged with the theft of \$25,000 from a mail pouch sent in April 1912 from Chicago to Pasadena, Cal.

When paper currency began to appear in the streets of Leavenworth in March, 1913, many persons believed it to be part of \$50,000 stolen in 1908 from a railway mail car in Kansas City and for the theft of which Charles A. Stevens, a negro, was convicted and sent to prison. Stevens had relatives here. Postoffice inspectors obtained specimens of the money found and began an investigation.

According to the postoffice authorities the money was traced through serial numbers on the bills as part of a mail shipment from the Continental Commercial National bank of Chicago to the First National bank of Pasadena. This shipment, mailed April 3rd, 1912, disappeared and the mail pouch in which it was alleged to have been placed was stuffed with waste paper when it arrived in Pasadena.

It is the theory of the postoffice inspectors who investigated the case that the money was brought by Oldfield to the home of his father here and that his winds were responsible for scattering it from the place where it was hidden.

B. F. Oldfield, father of the man arrested was questioned today by postoffice inspectors. He said he did not know of his son ever having such a sum of money as the amount stolen.

#### CARD OF THANKS.

We take this method of thanking our friends and neighbors who so kindly remembered us in our recent bereavement, also for the beautiful flowers.

C. Z. Roach and family.

### A HAPPY CHILD IN JUST A FEW HOURS

If Cross, Feverish, Constipated, Give "California Syrup of Figs."

Mothers can rest after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels and you have a well, playful, happy child. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can not cause injury. No difference what ails your little one—If full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup—Advertisement.

## A Notable Showing of SPRING SUITS and COATS

### HOPPERS

#### DR. RULE IN HOPEFUL MESSAGE AT CENTENARY REVIVAL SERVICE

A glowing yet moderate optimism permeated the address of Dr. F. M. Rule at Centenary church last night when the pastor compared the brass of materialism and selfishness to the pure gold of the spiritual life. Services are being conducted in the Sunday school room, which last evening was well-nigh filled. Music was furnished by a choir of fifteen voices. Dr. Rule took his text from Isaiah 60:17, "For brass I will bring gold."

"There is to come into the world the gold of Goldness for the brass of atheism. In an age like this, with the belief in God held everywhere, there is on every hand the atheist at heart, the man who shows by his every act that God is not real to him. A time will come when the brass of materialism will give place to the pure gold of spirituality. The age has been dominated by materialism and men have lived as if there were no future. A recent article in the Wall Street Journal on "Living for Immortality", shows which way the wind is blowing. The scales are falling from eyes hitherto blind and men are beginning to realize that each and all are spiritual beings. The brass of selfishness must give place to the gold of altruism. Selfishness, the cause of all trouble, must pass away and the gospel of Christ must supplant atheism and materialism."

#### SELLS ANOTHER BUICK

Howard Zahn sold a 5-passenger Buick to G. A. Faugst recently.

#### TO STOP HEADACHE

Headache usually comes from a sluggish liver and bowels. If you feel bilious, dizzy or tongue is coated and stomach sour, just get a 10-cent box of Cascarets to start your liver and bowels and your headaches will end.—Advertisement.

Bicycles. Finest line ever brought to this city at Gays Reliable Hardware.

#### PARENT-TEACHERS' MEETING

A meeting of the Parent-Teachers' association will be held at the Second Ward school today at 3:30 o'clock. Miss Kate Blackburn, the returned missionary from Bulgaria, will speak. A cordial invitation is extended to all.

#### COMING MONDAY

One of the important members of the cast of William West's latest musical comedy, "A Topsy Turvy Honeymoon," which will be the attraction at the theatre, next Monday, is Doc Dorman, the German character comedian.

Mr. Dorman is yet a mere boy, still enjoying life in his early "twenties." He is considered by those most interested in his future as a real "find." He is a southerner, Birmingham, Ala., being his birth place and present home. From "knee-pants" up he was a strong predilection for the stage and character impersonations have been his favorite study. When a strip of a boy he had the good fortune to see David Warfield when that famous comedian was a member of the Weber and Fields company. He immediately decided he was going to follow in the steps of the famous actor and has devoted his entire time to the study of the German character. Not the German as he is caricatured so frequently today, the impossible, language distorting German we are accustomed to, but the real, true to life, Teuton.

The VANNIER CHINA CO. carry a full line of BULBS, FLOWER SEEDS, and VEGETABLE SEEDS both in PACKAGES and BULK from two of the best growers in the country. D. M. FERRY & CO. and ALFRED BURBANK. Get our prices, which are very attractive, before buying.

#### WILL GIVE PLAY TONIGHT

The Philanthropic society of the School for the Blind will give the play, "How the Vote Won" by Cecely Hamilton in the chapel Thursday evening at 7:30 o'clock. The public is invited.

#### BUY YOUR EASTER MILLINERY AT HERMAN'S, THE BEST STYLES FOR THE LEAST MONEY.

PARENT-TEACHERS' MEETING. A meeting of the Parent-Teachers' association of the First Ward will be held Friday, March 26, at 7:30 o'clock at the Jefferson school. An interesting program has been arranged.

Illinois College vs. Augustana, Friday night at 8. Jones Building.

#### SCHOOL GARDEN WILL BE FEATURE OF OPEN AIR CHILDREN'S WORK

Plots Being Laid Out Under Supervision of J. H. S. Scientific Department—Exercise Without Violent Exertion Design for Pupils.

A school garden, with individual plots for vegetables and flowers, will soon be added to the equipment of the Open Air school and the pupils will have a chance to show their ability as gardeners according to the most approved methods, as well as reaping benefit from the healthiest kind of outdoor activity. Plans for the garden are under the direction of the scientific department of the high school, although direct supervision of the children's work will of course be under Miss Laura Hammond, the teacher. A part of the garden will be on the school grounds and a part will lie beyond the building adjoining on the west, through courtesy of the owner, John Frank. Yesterday afternoon, pictures of the Open Air school yard and of the garden site were taken by Otto Speith and other views will be taken when the project is completely under way.

In the garden there will be two main divisions. Around the fence for several feet will be beds for flowers and bordering these on the inside will be a pathway. In the central portion will be the vegetable beds. The plots will be let to pupils on condition only that they be kept up and special incentive will be afforded for care and tidiness. Many pupils in attendance at the Open Air school are really not fit for the more violent games of children at play and some may not be able to take part in regular gymnasium drill. For these the garden work will be especially good and from school garden trials in other cities, the plan promises to do all that is prophesied for it.

#### BIRTH RECORD

Mrs. Sanders Nunes has received word of the birth of a son to Mr. and Mrs. Thomas Andrews of Henry. Mr. Andrews is a grandson of Mrs. Nunes.

Born to Mr. and Mrs. Clautius Goes, 903 North Diamond street, Wednesday evening, an eight-pound daughter, Delcie Lee Goes.

Exhibition decorated china. Lucy H. Archer, Thursday and Friday, March 25 and 26, Vannier China Store.

#### MISS BEULAH CUMMING BECOMES BRIDE OF MR. ROYAL HOPPER

Ceremony Took Place Last Night at Residence of Bride's Parents on West College Avenue.

The marriage of Mr. Royal Hopper and Miss Beulah A. Cumming was solemnized Wednesday evening at 8 o'clock at the home of the bride's parents, 210 West College avenue, Rev. Myron L. Pontius, pastor of the Central Christian church, officiating, in the presence of only immediate relatives of the young people.

The house was appropriately decorated for the occasion with white roses, carnations, ferns, hyacinths, and smilax. In the parlor where the troth was plighted, the archway of the front windows was artistically decorated and from either side were suspended white satin ribbons, tied with pretty bows.

Preceding the ceremony Miss Lillian Carter played "Dream Waltzes" and the "Wedding March from Lohengrin." Two little flower girls preceded the bride and groom, Virginia Cumming, a sister of the bride, and Mabel Curry. They strewed hyacinths along the way and held the suspended ribbons apart, while the ceremony was being said in an impressive manner by Rev. Mr. Pontius. While congratulations were being extended, Miss Carter played "Humoresque."

The bride wore a gown of white messaline, with over dress of shower lace, with pearl trimmings. She carried a shower bouquet of bride's roses and lilies of the valley.

Members of the Elsinor club, of which the bride and groom are members, came in during the evening and surprised the newly-weds. Following the marriage a suitable collation was served and in cutting the wedding cake Miss Marie Finney received the ring, Miss Alma Hopper the thimble and Miss Lillian Carter the charm and money. The dining room was made attractive by the use of hyacinths and smilax. The table was decorated with candles.

The bride is a daughter of Mr. and Mrs. David Cumming of 210 West College avenue, and came here with her parents, three years ago from the northern part of Illinois. She is a graduate of the high school of Spring Valley and attended the Normal school at Normal, Ill. For the past three years she has been a teacher of the public school at Pisgah. She is a young woman of beautiful traits of character and life and talented in many ways. She as well as her husband are members of the Central Christian church.

Mr. Hopper is the son of Mr. and Mrs. Richard Hopper of 331 South Prairie street, and has practically spent his entire life in this city. He attended the public schools and also the Business college. He is a young man of pleasing personality and of ability. For several years he has been in the employ of Bernard Gause, where his services are highly valued. Mr. and Mrs. Hopper were the recipients of many beautiful and useful presents. They expect to make Jacksonville their home after Sept. 1.

Among the guests from away were Mr. and Mrs. Beecher Rimbey, Miss Minnie Taylor of Murrayville; Mr. and Mrs. J. L. Profit and Mrs. Nellie Hamilton of Springfield and Allen McCullough of Scott county.

#### THE FAMOUS PHIPPS HATS OF NEW YORK CITY SOLD ONLY AT HERMAN'S.

#### SEEK TO ENCOURAGE USE OF SILOS

No newspaper advertisement of the Farmers' State Bank & Trust Co., has attracted quite so much attention as the one they are now running. The bank caters especially to farmer patrons and believes so firmly in the advantages of using the silo on farms that they are making known that they will gladly lend money at a low rate of interest to any farmer who wishes to use it for the erection of a silo. Further they state that they will back up their belief in the use of silage by lending money to farmers for the purchase of cows to handle in connection with the use of silage.

#### ATTENTION EASTERN STAR.

Regular meeting Wilbur Chapter No. 358, with work to-night. Supper at 6 o'clock. All come.

Fern Haigh, W. M.  
Jennie Rajohn, Secretary.

#### FIRE AT LUTHERAN CHURCH.

The fire department was called about 10:30 Wednesday morning to the Lutheran church property on East College street, where a spark from the chimney caught fire on the roof. Children attending the Salem school noticed the fire and an alarm was sent in. When the firemen arrived the flames were burning quite briskly along the cornice on the north side of the building, but it was possible to extinguish them with the chemical engine. The damage done will probably amount to \$100.

Illinois College vs. Augustana, Friday night at 8. Jones Building.

#### WILLIAM SPIETH BUYS STUDIO IN OLNEY, ILL.

William E. Spieth has purchased a photograph studio in Olney, Ill., which he expects to open about June 1. Mr. Spieth has been with his brother, Otto Spieth, for the past three years and during this time he has demonstrated his ability as a practical photographer. Olney is a prosperous little city of 5,000 population in the southeastern part of the state and the property Mr. Spieth has acquired there is as complete as any found in that section of Illinois.

## ANDRE & ANDRE

The Store of Today and Tomorrow

Don't fail to see  
the new arrivals in  
furniture. Another  
car just unloaded.

## BEAVER BOARD Walls & Ceilings

mean solid comfort—satisfying in appearance, warmth, cleanness and permanence. Easily and quickly put up without dirt.

Beaver Board is moisture-protected—front and back—by a new sizing process. Temperature- and climate-proof. Requires no priming coat before painting.

Use Beaver Board instead of lath and plaster in home, office or store—for new work or remodeling.

Ask us for sample and information.
